***Faceless Oct 30 2022 Street life in the slums of Accra is realistically portrayed in this socially-committed, subtle novel about four educated women who are inspired by the plight of a 14-year old girl, Fofa. As the main characters convert their library center into a practical street initiative, the novel invokes the squalor, health risks, and vicious cycles of poverty and violence that drive children to the streets and women to prostitution; and, from which, ultimately, no one in the society is free.***

***postapocalyptic novel set a thousand years in the past, Paul Kingsnorth brings this dire scenario back to us through the eyes of the unforgettable Buccmaster, a proud landowner bearing witness to the end of his world. Accompanied by a band of like-minded men, Buccmaster is determined to seek revenge on the invaders. But as the men travel across the scorched English landscape, Buccmaster becomes increasingly unhinged by the immensity of his loss, and their path forward becomes increasingly unclear. Written in what the author describes as "a shadow tongue"—a version of Old English updated so as to be understandable to the modern reader—The Wake renders the inner life of an Anglo-Saxon man with an accuracy and immediacy rare in historical fiction. To enter Buccmaster's world is to feel powerfully the sheer strangeness of the past. A tale of lost gods and haunted visions, The Wake is both a sensational, gripping story and a major literary achievement.***

The government of Ghana passed a law asking all aliens without resident permits to regularise their stay in the country'. This story of migration, identities and lives undermined by cynical and xenophobic politics pushed to its logical and terrible conclusion pertains to the Ghanaian orders of 'alien compliance' issued in 1970-1971, which determined to force all non-ethnic Ghanaians, so called illegal immigrants, to return to their - so stipulated - 'home'. The novel thus touches on concerns of deeper relevance to the politics of race and migration of the twenty first century.***

***They Marched Into Sunlight Aug 28 2022 David Maraniss tells the epic story of Vietnam and the sixties through the events of a few gripping, passionate days of war and peace in October 1967. With meticulous and captivating detail, They Marched Into Sunlight brings that catastrophic time back to life while examining questions about the meaning of dissent and the official manipulation of truth—issues that are as relevant today as they were decades ago. In a seamless narrative, Maraniss weaves together the stories of three very different worlds: the death and heroism of soldiers in Vietnam, the anger and anxiety of antiwar students back home, and the confusion and obfuscating behavior of officials in Washington. To understand what happens to the people in these interconnected stories is to understand America's anguish. Based on thousands of primary documents and 180 on-the-record interviews, the book describes the battles that evoked cultural and political conflicts that still reverberate.***

**The Tamer Tamed Jul 15 2021 The Tamer Tamed is the subtitle or alternative title to John Fletcher's The Woman's Prize, a comedic sequel and reply to The Taming of the Shrew. The plot switches the gender roles of Shakespeare's play: the women seek to tame the men. Katherine (the "shrew" of the original) has died, and Petruchio takes a second wife, Maria. Maria denounces her former mildness and vows not to sleep with Petruchio until she "turn him and bend him as [she] list, and mold him into a babe again." After many comedic exchanges and plot twists, Petruchio is finally "tamed" in the eyes of Maria, and the play ends with the two reconciled. The play is seen to reflect how society's views of women, femininity, and "domestic propriety" were beginning to change. It is said that Fletcher wrote this play to attract Shakespeare's attention - the two went on to collaborate on at least three plays together. This brand new New Mermaid edition offers unique and fresh insight into the critical interpretation of the play. It builds on current critical foundations (the relationship with Taming of the**

***Inclusive Education in Italy Mar 30 2020 This book provides an innovative and thought-provoking analysis of the policy of integrazione scolastica from an inclusive perspective. Drawing on historical and empirical research methods the book arises out of an ethnographic study, which investigates the extent to which the policy of integrazione scolastica can be considered an inclusive policy. The author poses two fundamental questions: why are there episodes of micro-exclusion and discrimination against disabled pupils still taking place in regular schools after more than 30 years have passed since the enactment***

***of such a progressive policy? Can the policy of integration lead to the development of inclusion in Italy? The research findings presented in the book indicate that exclusion and discrimination towards disabled pupils in education do not result from a lack of implementation of the policy at a school level, rather from the perpetuation of dominant discourses, which construct disability as an individual deficit. The book does not deny the progress made in the country following the application of this anti-discriminatory policy; rather it challenges the hegemonic abilist culture and the traditional perspectives of disability and schooling that undermine the development of inclusive education. After having investigated the theoretical premises of the policy of integration, the author argues that this progressive policy is still rooted in a special needs education paradigm and that what was once a liberating policy has been transformed into a hegemonic tool which still manages, controls and normalizes disability leaving school settings and teaching and learning routines unchanged. She finally argues for a human rights approach for the development of an inclusive school for the 21st century. The book is an essential reading for academics, policy makers, researchers and students involved in education as it links ideological pressures to practical analyses.***
