Tristan Griffin is a household name and the author of a universally popular detective series. For the past few years he has lived in self-exile in a remote jungle lodge nestled in the Mayan hills of Southern Belize, with his partner Hedda. The novel begins as he attempts suicide. Altamont Stanbury, an old Kriol police constable posted to the local backwater of San Antonio, rushes to the scene with his daughter Philomena, the village nurse. Philomena saves Tristan but he remains unconscious. Altamont, a bumbler and long-time reader of crime novels, launches a half-hearted search for Hedda by radio but decides to remain at the lodge. In truth his reverence for Tristan the writer consumes all else, and he becomes obsessed with the Griffin books he finds at the lodge. When Tristan comes to, he is distraught and at times delirious, haunted by flashbacks of his uncompromising, cursed love for Hedda and the dark secret behind her disappearance. His anger and increasingly erratic behavior only find respite in the presence of Altamont’s innocent daughter. But he feels nothing but spite for Altamont himself, and the relationship between the two threatens to have fatal consequences for one or both.
Butterfly Ranch is a story of obsessive love, self-destruction and unexpected redemption. Hailed as the new Michael Crichton, compared to Stephen King and Jules Verne, James M. Tabor is an emerging suspense master who deftly blends heart-stopping adventure, cutting-edge science, and gripping intrigue. Now, in this original eBook short story, microbiologist Hallie Leland, the unforgettable protagonist from Tabor’s upcoming thriller *The Deep Zone*, battles a cabal of Islamic militants, Mexican drug lords, and domestic terrorists to save America from bioterror Armageddon. Includes a preview of Tabor’s electrifying debut thriller, *The Deep Zone*, which #1 New York Times bestselling author Brad Thor called “an absolutely phenomenal read—The Andromeda Strain for the twenty-first century. Ladies and gentlemen, meet James M. Tabor—the new Michael Crichton.” More advance praise for James M. Tabor’s *The Deep Zone* “The Deep Zone packs all the suspenseful wallop of Michael Crichton’s *The Andromeda Strain*, Stephen King’s *The Stand*, and Jules Verne’s *Journey to the Center of the Earth*. This is a literal cliffhanger that alters the way we look beneath the surface of our reality.”—Katherine Neville, New York Times bestselling author of *The Eight* “Deep-earth adventure, scintillating science, and cutthroat intrigue collide with thrilling results in James M. Tabor’s *The Deep Zone*. Wildly imaginative but grounded in today’s headlines, the story left me breathless and awed. Truly impressive.”—James Rollins, New York Times bestselling author of *The Devil Colony* “Just like the perilous cave that serves as its backdrop, this story is dark and terrifying—but with a light at its end. The book should come shrink-wrapped with a seat belt.”—Steve Berry, New York Times bestselling author of *The Columbus Affair* “One of the most ripping, primal thrillers I’ve read in a long while . . . Mixing adventure with breathless suspense, James M. Tabor expertly takes readers to the bottom of one of the world’s deepest caves and makes the journey both harrowing and awesome. This one really stands out.”—David Morrell, New York Times bestselling author of *Creepers*
Members of an Egyptian expedition fall victim to an ancient mummy's curse in a thrilling *Veronica Speedwell* novel from the New York Times bestselling author of the *Lady Julia Grey* mysteries. London, 1888. As colourful and unfettered as the butterflies she collects, Victorian adventuress Veronica Speedwell can't resist the allure of an exotic mystery--particularly one involving her enigmatic colleague, Stoker. His former expedition partner has vanished from an archaeological dig with a priceless diadem unearthed from the newly discovered tomb of an Egyptian princess. This disappearance is just the latest in a string of unfortunate events that have plagued the controversial expedition, and rumours abound that the curse of the vengeful princess has been unleashed as the shadowy figure of Anubis himself stalks the streets of London. But the perils of an ancient curse are not the only challenges Veronica must face as sordid details and malevolent enemies emerge from Stoker's past. Caught in a tangle of conspiracies and threats--and thrust into the public eye by an enterprising new foe--Veronica must separate facts from fantasy to unravel a web of duplicity that threatens to cost Stoker everything. . . . Other chapters include crisis management, emergency care, and evacuation from challenging environments."--
The Gods blessed Lieutenant Bak, head of the Medjay police, with a rare brilliance -- which is why he is the one to whom his commander turns in a time of need. The explorer Minnakht has vanished into the vast and merciless Egyptian desert -- or perhaps has strayed perilously close to Queen Maatkare Hatshepsut's well-guarded turquoise mines -- and before Bak sails north on a new assignment he is to seek out the missing man. But evil is traveling with him and his Medjays in the caravan they accompany eastward. Someone -- or something -- is responsible for the strange rash of deaths that is rapidly thinning the numbers of their fellow travelers. A straightforward search for a missing adventurer becomes a twisted knot of treachery and blood -- one that threatens to strangle the life from Bak and his men and leave them buried for all eternity beneath the blistering sands. With an increase in visits to remote and dangerous locations around the world, the number of serious and fatal injuries and illnesses associated with these expeditions has markedly increased. Medical personnel working in or near such locations are not always explicitly trained in the management of unique environmental injuries, such as high-altitude sickness, the bends, lightning strikes, frostbite, acute dehydration, venomous stings and bites, and tropical diseases. Many health care professionals seek training in the speciality of wilderness medicine to cope with the health risks faced when far removed from professional care resources, and the American College of Emergency Medicine has recently mandated that a minimum level of proficiency needs to be exhibited by all ER physicians in this discipline. This book covers everything a prospective field physician or medical consultant needs to prepare for when beginning an expedition and explains how to treat a variety of conditions in a concise, clinically oriented format. The Chinese state of the 1920s was one of disinified parts, ruled by warlords too strong for civilians to oust and too weak to resist the demands and bribes of foreign powers. China's treaty ports were crucibles of change in which congregated the educated elite, exposed to modern ways, who felt the need for a national revolution to revitalize their country and to provide her with a new, more integrated political system. Nationwide in their origins and representing varying political ideologies, this elite formed a loose coalition to achieve a common goal. In 1926 the first step in the military campaign known as the Northern Expedition was launched to conquer the armed forces of the warlords, the greatest obstacle in the path toward reunification of China. Until now, historians have ascribed much of the success of the Northern Expedition, culminating in the capture of Peking, to the Communist-led mass organizations who were reported to have won over the populace in the territory ahead of the National Revolutionary Army. Dr. Jordan's research, especially in Communist materials, has uncovered evidence indicating that, although the mass organizations did aid the army at particular points in 1925 and 1926, there had also been a side to the mass movement that was disruptive to the goal of reunification. Of additional import, some of the key participants in the later governments of Taiwan and Peking—among them Chiang Kai-shek, Mao Tse-tung, Chou En-lai, and Lin Piao—received their basic political training in the National Revolution. Members of an Egyptian expedition fall victim to an ancient mummy’s curse in this thrilling *Veronica Speedwell* novel from the New York Times bestselling author of the *Lady Julia Grey* mysteries. Caught in a tangle of conspiracies and threats—and thrust into the public eye by an enterprising new foe—Veronica must separate facts from fantasy to unravel a web of duplicity that threatens to cost Stoker everything... Lewis and Clark's world famous expedition is chronicled, with an emphasis on the young man whose dreams of conquering a continent are temporarily sidelined by his commitment to President Jefferson. In the tumultuous years following the Civil War, violence and lawlessness plagued the state of Texas, often overwhelming the ability of local law enforcement to maintain order. In response, Reconstruction-era governor Edmund J. Davis created a statewide police force that could be mobilized whenever and wherever local authorities were unable or unwilling to control lawlessness. During its three years (1870–1873) of existence, however, the Texas State Police was reviled as an arm of the Radical Republican party and widely condemned for being oppressive, arrogant, staffed with criminals and African Americans, and expensive to maintain, as well as for enforcing the new and unpopular laws that protected the rights of freed slaves. Drawing extensively on the wealth of previously untouched records in the Texas State Archives, as well as other contemporary sources, Barry A. Crouch and Donaly E. Brice here offer the first major objective assessment of the Texas State Police and its role in maintaining law and order in Reconstruction Texas. Examining the activities of the force throughout its tenure and across the state, the authors find that the Texas State Police actually did much to solve the problem of violence in a largely lawless state. While acknowledging that much of the criticism the agency received was merited, the authors make a convincing case that the state police performed many of the same duties that the Texas Rangers later assumed and fulfilled the same need for a mobile, statewide law enforcement agency. A search for an American’s missing brother draws Da Silva into the jungle In a blighted stretch of the Amazon, three men have come to blow up a bridge. Just before they complete their mission, one of them turns on the others, gunning one down and burying the other with the force of the explosion. He is stepping into his getaway plane when he notices that the first man’s body is gone. It doesn’t matter, he thinks. An injured man could not last a day in the jungle. When a daffy young American comes to Rio de Janeiro in search of her missing brother. Captain José Da Silva does his best to stay out of it. But when her search draws her into the mystery of the bridge that went nowhere, Da Silva will have to risk a jungle expedition of his own to save her life. The Arctic became part of Canada in 1880 when it was transferred from Britain. How the transfer came about and what Canada did with its new territory is described. The book focuses on the ten marine expeditions that the Dominion government sent north between 1884 and 1912 and examines what these expeditions accomplished. The centuries-long quest for the fabled Northwest Passage rivals the story of Antarctic exploration for heroism, drama, and tragedy. Expedition after expedition set off in search of a sea route connecting Europe with Asia’s riches; each expedition suffered extreme hardship and ended in defeat, until Roald Amundsen finally succeeded in 1903-06. Across the Top of the World brings this incredible saga to life through exhaustive research, grim firsthand accounts, and hundreds of dramatic images. Paintings, engravings, and photos of the intrepid men and their ships, as well as of relics and archaeological sites, provide a poignant and compelling link with the past, while landscapes and seascapes of the harsh yet beautiful Arctic illustrate the challenges that faced explorers. Covering all the major expeditions in detail, and written with passion and authority, this book is both a scholarly reference and an eminently readable history of Arctic exploration. In Punta Arenas, Chile, in November 1998, Karl Bushby set out on one of the most remarkable journeys of modern times. His plan is as simple as it is extraordinary: to walk up the Americas, across the Bering Strait, through Asia, Russia and Europe, back through the Channel Tunnel and returning to Britain in 2011. It is a journey of remarkable endurance -- 20 miles a day, 3,000 miles a year, 36,000 miles in total. By the time Karl returns, he will have crossed four continents, twenty-five countries, a frozen sea, six deserts and seven mountain ranges. But more than that, unlike other similar expeditions, Karl is attempting it single-handed: no huge support teams, no large sponsorship deals, this is the inspiring true story of a man facing remarkable odds -- and winning. Sarah Deane, an engaging amateur detective and graduate student from Boston, searches for a murderer in a Texas bird sanctuary and wildlife refuge The explorer and author of *Walking the Americas* and *Walking the Himalayas* delivers “a bold travelogue, illuminating great swathes of modern Africa” (Kirkus Reviews). Starting in November 2013 in a forest in Rwanda—where a modest spring spouts a trickle of clear, cold water—writer, photographer, and explorer Levison Wood set forth on foot, aiming to become the first person to walk the entire length of the fabled river. He followed the Nile for nine months, over 4,000 miles, through six nations—Rwanda, Tanzania, Uganda, South Sudan, the Republic of Sudan, and Egypt—to the Mediterranean coast. Like his predecessors, Wood camped in the wild, foraged for food, and trudged through rainforest, swamp, savannah, and desert, enduring life-threatening conditions at every turn. He traversed sandstorms, flash floods, minefields, and more, becoming a local celebrity in Uganda, where a popular rap song was written about him, and a potential enemy of the state in South Sudan, where he found himself caught in a civil war and detained by the secret police. As well as recounting his triumphs, like escaping a charging hippo and staving off wild crocodiles, Wood’s gripping account recalls the loss of Matthew Power, a journalist who died suddenly from heat exhaustion during their trek. As Wood walks on, often joined by local guides who help him to navigate foreign languages and customs, *Walking the Nile* maps out African history and contemporary life. “Woods emerges as a dutiful and brave guide.”—Los Angeles Times “Many have attempted this holy grail of an expedition—so I admire Lev’s determination and courage to pull this off.”—Bear Grylls “A brilliant book.”—Financial Times This book tells the story of a little-known but true story involving the dramatic rescue of six Fenian prisoners from Fremantle prison in Western Australia. This is the story of Captain Anthony's part in the rescue aboard the whaling ship *Catalpa*. Sarah Deane takes a break from graduate school-and dreary mid-March Boston-and heads for sunny Southern Texas to join her boyfriend, Philip Lentz, to birdwatching expedition. Philip's rare sighting of a pair of hook-billed kites gets things off to a great start. But when he ends up strangled by his binocular straps, the rest of the birders are both suspects and sitting ducks. Is the killer a member of the Hamburg Bird Club? Major "Big" Foster, who claims he also saw the kites? Or the pair of spinsters who run Cactus Wren Tours? When precocious thirteen-year-old Jeff Goldsmith disappears, Sarah teams up with Dr. Alex McKenzie for a crash course in detecting, to track down the killer before someone else becomes the next victim. 8 Friends get together to go on an expedition in the mountains of Norway to learn more about the habits of the scandinavian wolves. One of them comes across a map with some frightening notes written on it. The notes indicate that there are Trolls in that mountain area and they are far from how they are described in Norwegian fairytales. The notes describe them as blood thirsty predators. The friends start disappearing one after the other and they soon find out that they are being hunted. The soul survivor of the Expedition is locked away in a psychiatric ward because the authorities think he is the murderer but they dont have any evidence to get him convicted and put in jail. He tells his tale and soon reveals that he has done much more that the police would be interested in. He is Europes most wanted criminal but no one knows who he is until his confession was published by a student that he convinces to help him. The reason for his confession turns out to be his broken heart. Broken because one of his victims was his girlfriend that he killed unintentionally. After confessing to many unsolved murders and murders that the police didn't even know occured he goes back and tells the true story of what happen to the 8 friends on their expedition.

Clarion Book Review
The story of John Devoy’s 1876 Catalpa rescue is a tale of heroism, creativity, and the triumph of independent spirit in pursuit of freedom. The daily log on board the whaling ship *Catalpa* begins with the typical recount of a crew intact and a spirit unfettered, but such quiet words deceive the truth of the audacious enterprise that came to be known as one of the most important rescues in Irish American history. John Devoy’s men rescued six Irish political prisoners from the Australian coast, allowing millions of fellow Irishmen and American-Fenians, many of whom secretly financed the dangerous plot, to draw courage from the newly exiled prisoners. Philip Fennell and Marie King tell the story from John Devoy’s own records and the ship’s logbooks. John Devoy’s *Catalpa Expedition* includes an introduction by Terry Golway and the personal diaries, letters, and reports from John Devoy and his men. There’s popping out for a quick pint, and then there’s this – a gloriously preposterous 27,000 mile journey across 25 countries to grab a beer in pubs (bars) at opposite ends of the world. We’re talking an epic adventure, from an abandoned Soviet mine 700 miles from the North Pole, to a remote pub at South America’s southernmost tip. A journey undertaken in a TVR sports car, a car that many might consider untrustworthy just to drive to the shops. The journey packed a lot into its eight months. From braving the sheer drops of Bolivia’s Death Road, to drag racing the locals in Texas. From roaring across flooded salt flats, to sailing the straits of Magellan. From the highs of the planet’s best driving roads, to the lows of life in No-Man’s-Land, trapped between borders by red tape and bureaucracy. And from looking out for Polar Bears in the High Arctic, to dodging penguins in Tierra del Fuego. The story of the Pub2Pub Expedition is an inspirational account of where your dreams can take you if only you believe in them. Chronicling the epic journey made by Ben Coombs in his TVR Chimaera, this book is both an exciting adventure and a fascinating snapshot of the life and culture of the countries that he drove through. “Deep-earth adventure, scintillating science, and cutthroat intrigue collide with thrilling results that left me breathless and awed. . . . Truly impressive.”—James Rollins
Burned by her own government in a trumped-up scandal, brilliant microbiologist Hallie Leland swore she’d never return to the world of cutting-edge science and dangerous secrets. But a shocking summons from the White House changes all that. A mysterious epidemic is killing American soldiers in Afghanistan—and poised for outbreak in the United States and beyond. Without the ultrarare organism needed to create an antidote, millions will die. Hallie knows more about “Moonmilk” than anyone—but it can be found only at the bottom of the deepest cave on Earth. To get there, she and her team of experts must brave a forbidding Mexican jungle crawling with drug cartels, federales, and murderous locals. And in the supercave await far greater terrors: flooded tunnels, acid lakes, bottomless chasms, mind-warping blackness—and a cunning assassin with orders to make the mission a journey of no return. BONUS: This edition includes an excerpt from James M. Tabor's *Frozen Solid* and the short story "Lethal Expedition." “Just like the perilous cave that serves as its backdrop, this story is dark and terrifying—but with a light at its end. The book should come shrink-wrapped with a seat belt.”—Steve Berry “Brings a new meaning to ‘frightening.’”—The Star-Ledger Don’t miss James M. Tabor’s short story “Lethal Expedition” and a sneak peek of his new novel, *Frozen Solid*, in the back of the book. Americans tend to think of the Revolution as a Massachusetts-based event orchestrated by Virginians, but in fact the war took place mostly in the Middle Colonies—in New York and New Jersey and the parts of Pennsylvania that on a clear day you can almost see from the Empire State Building. In *My American Revolution*, Robert Sullivan delves into this first Middle America, digging for a glorious, heroic part of the past in the urban, suburban, and sometimes even rural landscape of today. And there are great adventures along the way: Sullivan investigates the true history of the crossing of the Delaware, its down-home reenactment each year for the past half a century, and—toward the end of a personal odyssey that involves camping in New Jersey backyards, hiking through lost “mountains,” and eventually some physical therapy—he evacuates illegally from Brooklyn to Manhattan by handmade boat. He recounts a Brooklyn historian’s failed attempt to memorialize a colonial Maryland regiment; a tattoo artist’s more successful use of a colonial submarine, which resulted in his 2007 arrest by the New York City police and the FBI; and the life of Philip Freneau, the first (and not great) poet of American independence, who died in a swamp in the snow. Last but not least, along New York harbor, Sullivan re-creates an ancient signal beacon. Like an almanac, *My American Revolution* moves through the calendar of American independence, considering the weather and the tides, the harbor and the estuary and the yearly return of the stars as salient factors in the war for independence. In this fiercely individual and often hilarious journey to make our revolution his, he shows us how alive our own history is, right under our noses.
