[The Lost Art of](#) Jul 07 2020 Yes! you really can clean your house and everything in it using just 3 products and it will cost you about \$20 per year. I have owned a residential cleaning company since 2004 and this book actually started life as my employees' handbook. Since this book was first published not much has changed. Dirt is still dirty and whether or not you want to clean your home, it still has to be cleaned. Most people hate to clean simply because they don't know how to do it, they were never taught. Were you actually taught how to clean? Probably not, but that's not your fault. Do you want to learn how to do it, like a professional, using minimal products and saving a bucket of money on cleaning supplies? If you do, then buy my book. First, I will send you to the store with a short shopping list; I will explain why I use each product and then how to use each product or tool, which by the way isn't much. I will then explain the logic behind my method of cleaning, called The PATH and then I will literally walk you through cleaning the different rooms in your house. The beauty of The PATH is that you can start and stop a cleaning job in any room and not lose your place. Just pick up where you left off and continue until the room is clean. So go answer the phone or change the baby. I only use 3 readily available products in both my business and in my house to clean everything. No more need for window, floor, counter, toilet, sink, tub, shower and mirror cleaners. No more polishes, waxes or air fresheners. Just think about how much you spend a year on cleaning products? Go ahead, I'll wait while you look under your sinks and calculate that. More than \$20.00 per year? If you are spending more than that you need my book. Everyone that embraces my methodology has a cleaner home, extra money to spend on the important things and the time to enjoy them. I have a website; [The Lost Art of House Cleaning.com](#) where I have uploaded a number of videos demonstrating my methodology and posted numerous articles on cleaning particular things. I have read all the reviews posted about my book on Amazon and I found the vast majority to be very complimentary. I have also found that some of the harshest critics still recognized that my methodology works. In addition to the

Amazon reviews I have personally received comments and compliments directly from the people that have bought my book. And I know that what I say in my book has helped thousands realize that cleaning their home is not all it's cracked to be if you know what you are doing. So buy my book, read it the first time for entertainment then read it a second time for inspiration and then, Enjoy the Clean!

Thanks, Jan M Dougherty
