Through use of the earliest sources together with psychological & sociological analysis, this book explores the leadership offered by Mohammad. It attempts to dispel the fog of superstition built up around him & discusses problems that are rarely examined. Wild, lyrical poems that examine the connections between physical and interior migration, from award-winning Palestinian American poet, novelist, and clinical psychologist Hala Alyan, author of *Salt Houses*. In *Twenty Years of Life*, Suzanne Bohan exposes the ugly truth that health is largely determined by zip code. Life expectancies in wealthy versus poor neighborhoods can vary by as much as twenty years. Bohan chronicles a bold experiment to challenge that inequity. The California Endowment, one of the nation's largest health foundations, is upending the old-school, top-down charity model and investing \$1 billion over ten years to help distressed communities advocate for their own interests. With compassion and insight, Bohan shares stories of students and parents, former street shooters, urban farmers, and a Native American tribe who are tapping into their latent political power to make their neighborhoods healthier. Their stories will fundamentally change how we think about the root causes of disease and the prospects for healing. This book narrates the story of a young family that, in the year 1975, made the bold decision to leave the United Kingdom and seek a new life in South Africa. Although intending to stay for just a few years, they only returned some twenty years later. Whilst there, they took the opportunity to visit virtually every town and game park, and five of the neighboring countries. However, this was not just an extended holiday, but an opportunity to study different cultures and customs. Their time there spanned the darkest days of apartheid, through the first signs of change sparked by the Soweto Riots, to the release of Nelson Mandela, the first democratic elections, and beyond. Thus, in addition to this book being partly a travelogue and memoir, it is also an eye-witness commentary on the highs and lows, the good, the bad, the dangers, and the changes that occurred during an eventful time, in that unique country. It should thus appeal not only the general reader who enjoys a yarn about far-away places, but also to those interested in social and cultural history. E. H. Carr's classic work on international relations published in 1939 was immediately recognized by friend and foe alike as a defining work. The author was one of the most influential and controversial intellectuals of the 20th century. The issues and themes he developed continue to have relevance to modern day concerns with power and its distribution in the international system. Michael Cox's critical introduction provides the reader with background information about the author, the context for the book, and its main themes and contemporary relevance. The classic memoir of activist, reformer, and social worker Jane Addams. Even by conservative estimates, the situation in the Darfur region of the Sudan is grave. There are 3.5 million people who are hungry, 2.5 million who have been displaced by violence, and 400,000 individuals who have died since the crisis began in 2003. The international community has failed to take steps to protect civilians, or to influence the Sudanese government to intervene. The spread of violence, rape, and hate-fueled killings across the border into Chad is simply the latest atrocity. Call it war. Call it genocide. Call it famine. There is no single word to describe the plight of these people. They face all of these horrors at once. In answer, Proof: Media for Social Justice, Amnesty International, and the Holocaust Museum of Houston have partnered to create *Darfur: Twenty Years of War and Genocide in Sudan*. The book covers three periods in the Sudan crisis, including images shot in 1988, when an estimated 250,000 Sudanese died of starvation; images from 1992 and 1995 that capture the atrocities of a civil war, when hundreds of thousands fled their homes to other destinations in Sudan or left the country altogether; and images from 2005 and more recently, bringing to light the severity of the humanitarian crisis underway, with the Sudanese government and the Janjaweed militias committing systematic violence on the people of Darfur. A handbook is included that provides website links and additional resources for readers to pursue. It specifies measures they can take to make their voices heard so the people of Darfur do not feel forgotten. All proceeds from the book will benefit Amnesty International and Genocide Intervention Network. Caught up in one of the many purges that swept the Soviet Union during the Great Terror, Leonid Petrovich Bolotov (1906-1987) was one of 86 engineers arrested at Leningrad's Red Triangle Rubber Factory and sent to the Gulag as "enemies of the people." He would be the only one to survive and return to his family after enduring two decades in the infamous Kolyma labor camps. Translated into English and published here for the first time, Bolotov's memoir narrates with growing intensity his arrest, imprisonment and interrogation, his "confession" and trial, his exile to hard labor in Arctic Siberia, and his rehabilitation in 1956 following the official end of Stalin's personality cult. This book focuses on measures pertaining to the three-pillar implementation strategy of R2P and examines how and to what extent the three pillars have been practised. Rich in its geographical scope, this edited book provides a critical analysis of R2P practice over the last two decades by focusing on representative cases from different regions. Analysing not only recent and/or underexplored cases but also widely studied cases from a fresh and alternative perspective, it sheds light on the depth and scope of the norm as well as the variety of actors involved and how they impact R2P practice. Diverging from most accounts, this edited book does not approach the cases as a 'success' or 'failure' of R2P. By studying the background to the conflicts and making assessments on a pillar-by-pillar basis, each chapter addresses the root causes, traces the process of implementation, investigates the actions of the actors involved, identifies elements of success and failure and finally questions the sustainability of the protection provided to date. Meanwhile, the conceptual chapters complement the case analyses through an overall evaluation of R2P's first two decades and the progress achieved so far with the aim to draw lessons for future implementations of R2P. NOW A MAJOR MOTION PICTURE starring ANNE HATHAWAY and JIM STURGESS It's 1988 and Dexter Mayhew and Emma Morley have only just met. But after only one day together, they cannot stop thinking about one another. Over twenty years, snapshots of that relationship are revealed on the same day—July 15th—of each year. Dex and Em face squabbles and fights, hopes and missed opportunities, laughter and tears. And as the true meaning of this one crucial day is revealed, they must come to grips with the nature of love and life itself. "One of the most hilarious and emotionally riveting love stories you'll ever encounter." —People #1 INTERNATIONAL BESTSELLER Alexandre Dumas, père (French for "father", akin to Senior in English), born Dumas Davy de la Pailleterie (1802-1870) was a French writer, best known for his numerous historical novels of high adventure which have made him one of the most widely read French authors in the world. Many of his novels, including *The Count of Monte Cristo* (1845), *The Three Musketeers* (1844), and *The Man in the Iron Mask* (1848) were serialized, and he also wrote plays and

magazine articles and was a prolific correspondent. Though best known now as a novelist, He earned his first fame as a dramatist. His *Henri III et sa Cour* (1829) was the first of the great Romantic historical dramas produced on the Paris stage, preceding Victor Hugo's more famous *Hernani* (1830). He was also a wellknown travel writer, writing such books as *From Paris to Cadiz* (1847), and *Travel Impressions: In Russia* (1860). His other works include *Twenty Years After* (1845), *The Two Dianas* (1846), *Queen Margot* (1845), *The Black Tulip* (1850), *The Wolf-Leader* (1857), and *The Knight of Sainte-Hermine* (1869). Cobb personally wrote the story of his life for a newspaper syndicate after his 20 record-setting years in baseball. This illustrated edition is the first commercial publication of his words in book form. One of our preeminent historians of race and democracy argues that the period since 2008 has marked nothing less than America's Third Reconstruction. In *The Third Reconstruction*, distinguished historian Peniel E. Joseph offers a powerful and personal new interpretation of recent history. The racial reckoning that unfolded in 2020, he argues, marked the climax of a Third Reconstruction: a new struggle for citizenship and dignity for Black Americans, just as momentous as the movements that arose after the Civil War and during the civil rights era. Joseph draws revealing connections and insights across centuries as he traces this Third Reconstruction from the election of Barack Obama to the rise of Black Lives Matter to the failed assault on the Capitol. America's first and second Reconstructions fell tragically short of their grand aims. Our Third Reconstruction offers a new chance to achieve Black dignity and citizenship at last—an opportunity to choose hope over fear. *Twenty Years of School-based Mass Shootings in the United States: Columbine to Santa Fe* is an examination of twenty years of school-based mass shootings, from Columbine to Santa Fe, exploring the larger environmental framework within which these incidents occurred. Angelyn Spaulding Flowers and Cotina Lane Pixley use a mixed-methods approach to examine a diverse set of factors, identifying risk and protective factors along with specifically desired public policy responses by evaluating the convergence of variables from the range of school-based mass shootings included in this study. These variables include the type of weapon used, the availability of that type of weapon, perpetrator characteristics, school characteristics, as well as the geospatial and demographic characteristics of the school neighborhood. These school-based mass shooting incidents are explored at both the state and regional level and are further discussed in comparison to leisure time gun use, homicide rates, and suicide rates in the geographical area. The overarching geospatial analytical framework for this research also includes an examination of the manner in which existing policy enactments such as state gun laws vary by geography. Spaulding Flowers and Lane Pixley argue that the increased number of fatalities in school-based mass shooting is largely due to the increased lethality of the weapons, and they propose alternative solutions. Scholars of criminology, sociology, political science, and history will find this book particularly useful. The latest entry in this acclaimed series of new translations of the Musketeer novels, *Blood Royal* continues the adventures of the valiant d'Artagnan and his three loyal friends. The latest translation in Lawrence Ellsworth's acclaimed new series of Alexandre Dumas's greatest adventures is *Blood Royal*, the second half of what Dumas originally published as *Twenty Years After*. In this volume all the plots and schemes set up in the previous novel come to dramatic fruition in the kind of exciting thrill-ride Dumas is famous for—while at the same time introducing the characters and themes that form the foundation of the rest of the series, leading to its great climax in *The Man in the Iron Mask*. In *Blood Royal*, the Four Musketeers all venture to England on parallel missions to save King Charles I, pursued by the murderous and vengeful Mordaunt, the son of Milady de Winter, the great villain of *The Three Musketeers*. Despite all his experience, d'Artagnan is repeatedly foiled by the much-younger Mordaunt, who erupts out of the past to embody the strengths of audacity and cunning that were once d'Artagnan's hallmarks. Mordaunt has corrupted those youthful strengths, and the older d'Artagnan is no match for him until he is able to pull his former team together again. To do this d'Artagnan will have to become a true leader of men, leading not just by example but also by foresight, persuasion, and compromise. Only then can the team of Athos, Porthos, and Aramis be re-formed in all its might to defeat the specter of their past. *Blood Royal* is unmatched in Dumas's oeuvre in its depictions of his most famous and beloved characters, and an unforgettable saga of swordplay, suspense, revenge, and ultimate triumph. In 1844, Alexandre Dumas published *The Three Musketeers*, a novel so famous and still so popular today that it scarcely needs introduction. Shortly thereafter he wrote a sequel, *Twenty Years After*. Later, toward the end of his career, Dumas wrote *The Red Sphinx*, another direct sequel to *The Three Musketeers* that begins a mere twenty days afterward. Picking up right where the *The Three Musketeers* left off, *The Red Sphinx* continues the stories of Cardinal Richelieu, Queen Anne, and King Louis XIII—and introduces a charming new hero, the Comte de Moret, a real historical figure from the period. Dumas wrote seventy-five chapters of *The Red Sphinx*, but never quite finished it and the novel languished for almost a century. While Dumas never completed the book, he had earlier written a separate novella, *The Dove*, that recounts the final adventures of Moret and Cardinal Richelieu. Now for the first time in one cohesive narrative, *The Red Sphinx* and *The Dove* make a complete and satisfying storyline—a rip-roaring novel of historical adventure, heretofore unknown to English-language readers, by the great Alexandre Dumas, king of the swashbucklers. New York Times bestseller *Twenty years after the publication of the bestselling All's Fair*, James Carville and Mary Matalin look at how they—and America—have changed in the last two decades. James Carville and Mary Matalin have long held the mantle of the nation's most ideologically mismatched and intensely opinionated political couple. In this follow-up to *All's Fair*, Carville and Matalin pick up the story they began in that groundbreaking bestseller and talk family, faith, love, and politics in their two winning voices. If nothing else, this new collaboration proves that after twenty years of marriage they can still manage to agree on a few things. A fascinating look at the last two decades in American politics and an intimate, quick-witted primer on grown-up relationships and values, *Love & War* provides unprecedented insight into one of our nation's most intriguing and powerful couples. With their natural charm and sharp intelligence, Carville and Matalin have written undoubtedly the most spirited memoir of the year. "Twenty years after the events in *The Three Musketeers*, the great cavaliers--Athos, Porthos, Aramis, and D'Artagnan--return to save British King Charles I from death at the hands of his chief nemesis, General Oliver Cromwell"--Page 4 of cover. For years d'Artagnan shared his adventures with his three comrades—Athos, Porthos, and Aramis—but now, in *Between Two Kings*, the First Musketeer returns to the forefront. This is truly d'Artagnan's novel, bringing to a dramatic climax the story that began when he first arrived in Paris thirty years earlier in *The Three Musketeers*. This brand-new translation of *Between Two Kings* immediately picks up the story and themes of *Blood Royal*, where d'Artagnan tries to thwart destiny by saving England's Charles I; now, he will be instrumental in the restoration of his son, Charles II, the first of the two kings of the title. Disappointed in the irresolution of young Louis XIV, d'Artagnan takes a leave of absence from the King's Musketeers and ventures to England with a bold plan to hoist Charles II onto his throne, a swashbuckling escapade in which he is unwittingly assisted by his old comrade Athos. D'Artagnan returns triumphant to France, where he is recalled to service by the second king, Louis XIV, who is now finally ready to take full advantage of the extraordinary talents of his officer of musketeers. This newly translated volume by Lawrence Ellsworth is the first volume of Alexandre Dumas's mega-novel *Le Vicomte de Bragelonne*, the epic finale to the Musketeers Cycle, which will end with the justly-famous *The Man in the Iron Mask*. This marks the first significant new English translation of this series of novels in over a century. Military pension policies are as old as the republic itself and reside at the intersection of American social, economic, and defense policy. But as the nation's social and economic circumstances underwent dramatic changes over the last half century, military pension policy remained static, stuck in the personnel and retirement model of the industrial age. This book examines why. Integrating policy history, theory, and practice, *Twenty Years of Service* provides the

most comprehensive examination of US military pension policy in a generation. Brandon J. Archuleta sets the stage with an exploration of the rise, evolution, and transformation of the veterans' policy subsystem from the American Revolution through World War II. The ensuing theoretical overview explains how the military personnel policy subsystem achieved the autonomy it enjoyed from 1948 to 2018; it also offers a new perspective on autonomous policy subsystems in general, which helps to account for the long-term pension policy stasis. In practical terms, Archuleta explores the role of the successful 2015 Military Compensation and Retirement Modernization Commission as an institutional venue for policy change during the congressional budget battles of the 2010s. Through extensive archival research, illustrative case studies, and field interviews with Pentagon bureaucrats, congressional staffers, veterans' lobbyists, defense scholars, and journalists, *Twenty Years of Service* brings the policymaking process to life. Its insights will prove invaluable to policy scholars and defense practitioners alike.

In the near future, after a storm strikes New York City, the strangenesses begin. A down-to-earth gardener finds that his feet no longer touch the ground. Abandoned at the mayor's office, a baby identifies corruption with her mere presence, marking the guilty with blemishes and boils. A seductive gold digger is soon tapped to combat forces beyond imagining. Unbeknownst to them, they are all descended from the whimsical, capricious, wanton creatures known as the jinn, who live in a world separated from ours by a veil. Centuries ago, Dunia, a princess of the jinn, fell in love with a mortal man of reason. Together they produced an astonishing number of children, unaware of their fantastical powers, who spread across generations in the human world. Once the line between worlds is breached on a grand scale, Dunia's children and others will play a role in an epic war between light and dark spanning a thousand and one nights—or two years, eight months, and twenty-eight nights. It is a time of enormous upheaval, in which beliefs are challenged, words act like poison, silence is a disease, and a noise may contain a hidden curse. Inspired by the traditional "wonder tales" of the East, Salman Rushdie's novel is a masterpiece about the age-old conflicts that remain in today's world. *Two Years Eight Months and Twenty-Eight Nights* is satirical and bawdy, full of cunning and folly, rivalries and betrayals, kismet and karma, rapture and redemption. Praise for *Two Years Eight Months and Twenty-Eight Nights* "Rushdie is our Scheherazade. . . . This book is a fantasy, a fairytale—and a brilliant reflection of and serious meditation on the choices and agonies of our life in this world."—Ursula K. Le Guin, *The Guardian* "One of the major literary voices of our time . . . In reading this new book, one cannot escape the feeling that [Rushdie's] years of writing and success have perhaps been preparation for this moment, for the creation of this tremendously inventive and timely novel."—*San Francisco Chronicle* "A wicked bit of satire . . . [Rushdie] riffs and expands on the tales of Scheherazade, another storyteller whose spinning of yarns was a matter of life and death."—*USA Today* "A swirling tale of genies and geniuses [that] translates the bloody upheavals of our last few decades into the comic-book antics of warring jinn wielding bolts of fire, mystical transmutations and rhyming battle spells."—*The Washington Post* "Great fun . . . The novel shines brightest in the panache of its unfolding, the electric grace and nimble eloquence and extraordinary range and layering of his voice."—*The Boston Globe* E.H.
