Gone to War Mar 16 2022 *Gone to War* is a concisely written historical novel with a slice of romance about army nurse Emma who, after battling anti-German American prejudice, is among the first group sent to France in 1917. Surviving the “periscope pond,” she arrives in France. Briefly, she’s reunited with her fiancé, Wolfe, an army doctor who’s also part of an advanced party in Paris. Assigned to a forward aid station, Emma grapples with the wounded, knee-deep mud, biting-cold conditions, medical shortages, and unfamiliar food. Emotionally, she faces the death and disturbing mutilation of young boys crying for their mothers. A close Latino friend, Juan, visits often, bringing news of Wolfe and raising her spirits. One night, Juan brings news that Wolfe, while visiting the Allied trenches, disappeared during an enemy raid. Wolfe is rescued but suffers from shell shock. He’d been taken prisoner by a Texan German American who was forced to join the German Army. Emma’s love and a “rocking chair” regimen helps Wolfe regain his interest in medicine.

Enid Yandell Jul 20 2022 Louisville-born and nationally renowned sculptor Enid Yandell (1869–1934) was ahead of her time. She began her career when sculpture was considered too physical, too messy, and too masculine for women. Yandell challenged the gender norms of early-twentieth-century artistic practice and became an award-winning sculptor, independent artist, and activist for women's suffrage. This study examines Yandell's life and work: how she grew from a young, Southern dilettante— the daughter of a Confederate medical officer—into a mature, gifted artist who ran in circles with more established male artists in New York and Paris, such as Frederick MacMonnies and Auguste Rodin. At the World's Columbian Exposition in Chicago in 1893, she was one of a select group of

women sculptors, known as the White Rabbits, who sculpted the statues and architectural embellishments of the fair. As a result of her success in Chicago, Yandell was commissioned to create a twenty-five foot figure of Pallas Athena for Nashville's Centennial Exposition in 1897. Newspapers hailed it as the largest statue ever created by a woman. Yandell's command of classical subject matter was matched by her abilities with large-scale, figurative works such as the Daniel Boone statue in Cherokee Park, Louisville. In 1898 Yandell was among the first women to be selected for membership in the National Sculpture Society, the first organization of professional sculptors formed in the United States. Presented to coincide with the 150th anniversary of her birth, this study demonstrates the ways in which Yandell was a pioneer and draws attention to her legacy.

Latinos in American Society Jul 28 2020 It is well known that Latinos in the United States bear a disproportionate burden of low educational attainment, high residential segregation, and low visibility in the national political landscape. In *Latinos in American Society*, Ruth Enid Zambrana brings together the latest research on Latinos in the United States to demonstrate how national origin, age, gender, socioeconomic status, and education affect the well-being of families and individuals. By mapping out how these factors result in economic, social, and political disadvantage, Zambrana challenges the widespread negative perceptions of Latinos in America and the single story of Latinos in the United States as a monolithic group. Synthesizing an increasingly substantial body of social science research—much of it emerging from the interdisciplinary fields of Chicano studies, U.S. Latino studies, critical race studies, and family studies—the author adopts an intersectional "social inequality lens" as a means for understanding the broader sociopolitical dynamics of the Latino family, considering ethnic subgroup diversity, community context, institutional practices, and their intersections with family processes and well-being. Zambrana, a leading expert on Latino populations in America, demonstrates the value of this approach for capturing the contemporary complexity of and transitions within diverse U.S. Latino families and communities.

This book offers the most up-to-date portrait we have of Latinos in America today.

Enid Mar 28 2023 This is the story of Enid Collins, the famed handbag designer of the 1940s, 50s and 60s. The setting is Spring Valley Ranch, the 400 acres of rugged but beautiful land that she and husband Frederic Collins bought sight unseen in order to pursue a dream of ranching - a dream that wasn't to be. Instead, out of their need to survive, they did what they knew how to do, they made things. In many ways, their remote and rugged lives were far from ours today. In other ways, they were not that different. They succeeded, they struggled, they lived. We begin as spectators watching from a distance but through this story we are beckoned closer - to see what they saw and, indeed, read their journaled thoughts. Through this human story you are

invited to examine your own life, to question. You are invited to a place of deeper meaning and purpose.

Good to Her Apr 24 2020 *Good to Her* is a historical literary novel set against the backdrop of the famous New York City restaurant, Dinty Moore's, which stood at the corner of 46th Street just off Broadway for some 50 years. The novel moves forward through 1964, exploring the changing political and social life of the times, and focusing on the marriage of Nate Neumann, a successful New York City businessman, and Sallie, his much younger wife. Having fled the confines of small-town Indiana, Sallie comes to New York with dreams of becoming an actress. She meets Nate in Dinty Moore's. Sallie is 20 and fresh off the farm. Nate is 46 and instantly smitten. The story is brightened by appearances or references to celebrities who frequent the place such as Walter Winchell, Lauren Bacall, and Humphrey Bogart.

Enid Yandell Jun 19 2022 The life and work of a sculptor who pushed both aesthetic and social boundaries at the turn of the twentieth century is explored in this in-depth study. Working in the late nineteenth and early twentieth centuries, Louisville-born sculptor Enid Yandell developed a distinctly physical and masculine style that challenged the gender norms of artistic

practice. An award-winning sculptor with numerous commissions, she was also an activist for women's suffrage and other political movements. This study examines Yandell's evolution from a young, Southern dilettante into an internationally acclaimed artist and public figure. Yandell found early success as one of a select group of female sculptors at the World's Columbian Exposition in Chicago in 1893. She was then commissioned to create a twenty-five foot figure of Pallas Athena for Nashville's Centennial Exposition in 1897. Yandell's command of classical subject matter was matched by her abilities with large-scale, figurative works such as the Daniel Boone statue in Cherokee Park, Louisville. Part of the art worlds of New York and Paris, Yandell associated with luminary sculptors like Frederick MacMonnies and Auguste Rodin. She became one of the first female members of the National Sculpture Society in 1898. This authoritative study explores the many ways in which Yandell was a pioneer.

Tourist Season Sep 22 2022 In *Tourist Season*, award-winning author Enid Shomer offers ten brilliant, richly detailed unforgettable stories of resilient women, aged seventeen to seventy, each at a pivotal point in her life. Their journeys cross distances of place and mind: A middle-aged Floridian who learns that she is the reincarnation of a Buddhist saint takes daring steps on her path to enlightenment; a long-buried secret forces one woman to leave the daughter she deeply loves; a Radcliffe student faces shocking family truths and taboos during the summer of 1966; an unexpected kinship forms between two women who land in a county jail after an excursion to Las Vegas. These travelers wander through shifting emotional landscapes of love, sex, and relationships, and often miss the destinations they'd wished to reach—of insight, connection, and understanding. Whether journeying to new geographical locales or exploring uncharted personal terrain, *Tourist Season* offers a provocative, engaging, and often humorous road map of the heart and soul. “[When reading Enid Shomer’s stories,] the thing one quickly senses is the will and the voice, someone saying, in effect, ‘Relax, be comfortable, I’m going to take good care of you.’ These are very fine stories.” –James Salter, in *Imaginary Men* “Beautifully made, surprising and inevitable, wonderfully inventive and deeply true, these stories are full of small, irreverent, straight-faced miracles. They will lead women of all ages to suspect that the best may be yet to come.” --Pam Houston, author of *Cowboys Are My Weakness and Sight Hound*

Black Drum Oct 23 2022 In *Black Drum*, Enid Shomer fuses mind with body, knowledge with physical being, and affirms the capacity of language to accomplish this fusion. With clearly fashioned images, her focus often narrows on close particulars or leaps to wide angles, as in these lines from the title poem in which the narrator is battling a fish: We had been struggling for ten minutes—a lifetime—over whose world would prevail: his, with its purlled edges and continuous center, or mine with its yin and yang, its surface incised into sky and sea, the land like a scar between. The characters in Shomer’s poems discover the ceaseless motion of living in the body and the inevitability of decay. In “Notes from the Sketch book of Gustav Klimt,” Shomer boldly says, “I have always balked / at the purely decorative, / but then I saw that the symbolic / could stir us by its absence.” *Black Drum* insists that life on earth speaks of transformation and transience; epiphany can happen any where, with “schemes illegal and grand” with slot machines, race horses, dead or estranged relatives, and lost love. Enid Shomer signals us to make the most of life, despite our limitations and in the face of bewildering catastrophe.

Obesity Interventions in Underserved Communities Feb 21 2020 Groundbreaking approaches to preventing and reducing obesity among minority, low-income, and other medically underserved communities in the United States. The obesity epidemic has a disproportionate impact on communities that are hard-hit by social and economic disadvantages. In *Obesity Interventions in Underserved Communities*, a diverse group of researchers explores effective models for treating and preventing obesity in such communities. The volume provides overviews of the literature at specific junctures of society and health (e.g., the effectiveness of preschool obesity prevention programs), as well as commentaries that shape our understanding of particular parts of the obesity epidemic and field reports on innovative approaches to combating obesity in racial/ethnic minority and other medically underserved populations in the United States. Authors make specific recommendations to policy makers which are designed to reverse the rising rate of obesity dramatically. The thirty-one literature reviews, commentaries, and field reports collected here address obesity prevention and treatment programs implemented across a spectrum of underserved populations, with particular attention paid to children and adolescents. Aimed at students, clinicians, and community workers in public health and health policy, as well as family medicine and pediatrics, sociology, childhood education, and nutrition—and deeply informed by fieldwork—this book demonstrates the importance of taking a full contextual view, both historical and current, when considering the challenge of reversing upward obesity trends among ethnic minorities, impoverished people, and other underserved populations.

Fiscal Decentralization and Local Finance in Developing Countries Feb 15 2022 This book draws on experiences in developing countries to bridge the gap between the conventional textbook treatment of fiscal decentralization and the actual practice of subnational government finance. The extensive literature about the theory and practice is surveyed and longstanding problems and new questions are addressed. It focuses on the key choices that must be made in decentralizing,

on how economic and political factors shape the choices that countries make, and on how, by paying more attention to the need for a more comprehensive approach and the critical connections between different components of decentralization reform, everyone involved might get more for their money.

Emerging Intersections Dec 01 2020 The United States is known as a "melting pot" yet this mix tends to be volatile and contributes to a long history of oppression, racism, and bigotry. *Emerging Intersections*, an anthology of ten previously unpublished essays, looks at the problems of inequality and oppression from new angles and promotes intersectionality as an interpretive tool that can be utilized to better understand the ways in which race, class, gender, ethnicity, and other dimensions of difference shape our lives today. The book showcases innovative contributions that expand our understanding of how inequality affects people of color, demonstrates the ways public policies reinforce existing systems of inequality, and shows how research and teaching using an intersectional perspective compels scholars to become agents of change within institutions. By offering practical applications for using intersectional knowledge, *Emerging Intersections* will help bring us one step closer to achieving positive institutional change and social justice.
