Chernobyl: A Stalkers' Guide Sep 08 2020 Drawing on
unprecedented access to the Chernobyl Exclusion
Zone--including insights gained while working as a
tour guide and during an illegal "stalker"
hike--Darmon Richter creates an entirely new
portrait of Chernobyl's forgotten ghost towns,
monuments and more Since the first atomic bomb was
dropped, humankind has been haunted by the idea of
nuclear apocalypse. That nightmare almost became
reality in 1986, when an accident at the USSR's
Chernobyl Nuclear Power Plant triggered the world's
worst radiological crisis. The events of that night

are well documented--but history didn't stop there. Chernobyl, as a place, remains very much alive today. More than a quarter of a million tourists visited the Zone over the last few years, while millions more watched the acclaimed 2019 HBO mini-series Chernobyl. In *Chernobyl: A Stalkers' Guide*, researcher Darmon Richter journeys into the contemporary Exclusion Zone, venturing deeper than any previously published account. While thousands of foreign visitors congregate around a handful of curated sites, beyond the tourist hotspots lies a wild and mysterious land the size of a small country. In the forests of Chernobyl, historic village settlements and Soviet-era utopianism have lain abandoned since the time of the disaster--overshadowed by vast, unearthly megastructures designed to win the Cold War. Richter combines photographs of discoveries made during his numerous visits to the Zone with the voices of those who witnessed history--engineers, scientists, police and evacuees. He explores evacuated regions in both Ukraine and Belarus, finding forgotten ghost towns and Soviet monuments lost deep in irradiated forests, gains exclusive access inside the most secure areas of the power plant itself, and joins the "stalkers" of Chernobyl as he sets out on a high-stakes illegal hike to the heart of the Exclusion Zone.

The Hauntology of Everyday Life Feb 23 2022 This volume develops a comprehensive framework for applying the theory of hauntology to everyday life from ethnographic and clinical points of view. The

central argument of the book is that all human experience is fundamentally haunted, and that a shift from ontological theory of subjective experience to a hauntological one is necessary and has urgent implications. Building on the notion of hauntology outlined by Derrida, the discussions are developed within the frameworks of psychoanalytic theory, specifically Jacques Lacan's object relational theory of ego development and his structural reading of Freud's theory of the psychic apparatus and its dynamics; along with the Hegelian ontology of the negative and its later modifications by 20th century philosophers such as Heidegger and Derrida; and the semiotics of difference introduced by Saussure and worked by Jakobson and others. This book argues and demonstrates the immediate relevance of hauntological analysis in everyday life by providing a microanalysis of the roles played by power, meaning and desire; and by using vignettes and data from ethnographic research and clinical settings, as well as references to literature, movies and other cultural products.

Haunting History Feb 11 2021 This book argues for a deconstructive approach to the past by looking at deconstruction's impact on American historians and then presenting an alternative hauntological theory and method of history influenced by, but not beholden to, the work of Jacques Derrida.

Ghosts Aug 08 2020 A New York Times Book Review Editor's Choice "Roger Clarke tells this [the story that inspired Henry James' *The Turn of the Screw*] and many other gloriously weird stories with real verve, and also a kind of narrative authority that tends to constrain the skeptical voice within... [an] erudite and richly entertaining book." -New

York Times Book Review "Is there anybody out there?" No matter how rationally we order our lives, few of us are completely immune to the suggestion of the uncanny and the fear of the dark. What explains sightings of ghosts? Why do they fascinate us? What exactly do those who have been haunted see? What did they believe? And what proof is there? Taking us through the key hauntings that have obsessed the world, from the true events that inspired Henry James's classic *The Turn of the Screw* right up to the present day, Roger Clarke unfolds a story of class conflict, charlatans, and true believers. The cast list includes royalty and prime ministers, Samuel Johnson, John Wesley, Harry Houdini, and Adolf Hitler. The chapters cover everything from religious beliefs to modern developments in neuroscience, the medicine of ghosts, and the technology of ghosthunting. There are haunted WWI submarines, houses so blighted by phantoms they are demolished, a seventeenth-century Ghost Hunter General, and the emergence of the Victorian flash mob, where hundreds would stand outside rumored sites all night waiting to catch sight of a dead face at a window. Written as grippingly as the best ghost fiction, *A Natural History of Ghosts* takes us on an unforgettable hunt through the most haunted places of the last five hundred years and our longing to believe.

The Gold Machine Oct 10 2020 A New Statesman Book of the Year, 2021 'Follow Iain Sinclair into the cloud jungles of Peru and emerge questioning all that seemed so solid and immutable.' Barry Miles 'The Gold Machine is a trip, a psychoactive expedition in compelling company.' TLS From the

award-winning author of *The Last London* and *Lights Out for the Territory*, a journey in the footsteps of our ancestors. In *The Gold Machine*, Iain Sinclair and his daughter travel through Peru, guided by – and in reaction to – an ill-fated colonial expedition led by his great-grandfather, Arthur Sinclair. The incursions of Catholic bounty hunters and Adventist missionaries are contrasted with today's ecotourists and short-cut vision seekers. The family history of a displaced Scottish highlander fades into the brutal reality of a major land grab. The historic thirst for gold and the establishment of sprawling coffee plantations leave terrible wounds on virgin territory. What might once have been portrayed as an intrepid adventure is transformed into a shocking tale of the violated rights of indigenous people, secret dealings between London finance and Peruvian government, and the collusion of the church in colonial expansion. In Sinclair's haunting prose, no place escapes its past, and nor can we.

Hauntology Jan 05 2023 Ghosts and specters, the eerie and the occult. Why is contemporary culture so preoccupied by the supernatural, so captivated by the revenants of an earlier age, so haunted? The concept of Hauntology has evolved since first emerging in the 1990s, and has now entered the cultural mainstream as a shorthand for our new-found obsession with the recent past. But where does this term come from and what exactly does it mean? This book seeks to answer these questions by examining the history of our fascination with the uncanny from the golden age of the Victorian ghost story to the present day. From Dickens to Derrida, MR James to

Mark Fisher; from the rise of Spiritualism to the folk horror revival, Hauntology traces our continuing engagement with these esoteric ideas. Moving between the literary and the theoretical, the visual and the political, Hauntology explores our nostalgia for the cultural artifacts of a past from which we seem unable to break free.

Psycho Too Jun 29 2022 Will Self and Ralph Steadman join forces once again in a further post-millennial meditation on the vexed relationship of psyche and place in a globalised world; *Psycho Too* brings together a second helping of their very best words and pictures from 'Psychogeography', the columns they contributed to the Independent for half a decade. The introduction, 'Journey Through Britain' is a new extended essay by Self, accompanied by Steadman's inimitable images. It tells of how Self journeyed to Dubai, that Götterdämmerung of the contemporary built environment, in order to walk the length of the artificial Britain-shaped island, in the offshore luxury housing development known as 'The World'. Ranging from Istanbul to Los Angeles and from the crumbling coastline of East Yorkshire to the adamantine heads of Easter Island, Will Self's engaging and disturbing vision is once again perfectly counter-pointed by Ralph Steadman's edgy and dazzling artwork.

Theatrical Topographies Apr 15 2021 This book on contemporary theater and performance examines how independent theater in Uruguay is marked by points of crisis as shifting networks of power among economic, political, historical, legal, cultural, literary, and gender worlds collide.

The Satyr & Other Tales Nov 10 2020 "It was the

straying that found the path direct." - Austin Osman Spare In the final throes of the Blitz, Austin Osman Spare is the only salvation for Marlene, an artist escaping a traumatic past. Wandering Southwark's ruins she encounters Paddy Hughes, a fugitive of another kind. Falling under Marlene's spell Hughes agrees to seek out her lost mentor, the man she calls The Satyr. Yet Marlene's past will not rest as the mysterious Doctor Charnock pursues them, trying to capture the patient she'd once caged. The Satyr is a tale inspired by the life and ethos of sorcerer and artist Austin Osman Spare. Another three novellas of occult enchantment follow: a bookseller discovers that his late wife knew the Devil, in the Carpathian Mountains refugees shelter in a museum devoted to a forgotten author, and in Prague a portraitist must paint a countess whose appearance is never the same twice. This omnibus is comprised of *The Satyr* (2010) and *The Bestiary of Communion* (2011); newly illustrated, expanded, and revised.

Wanderlust Mar 27 2022 A passionate, thought-provoking exploration of walking as a political and cultural activity, from the author of Orwell's *Roses* Drawing together many histories--of anatomical evolution and city design, of treadmills and labyrinths, of walking clubs and sexual mores--Rebecca Solnit creates a fascinating portrait of the range of possibilities presented by walking. Arguing that the history of walking includes walking for pleasure as well as for political, aesthetic, and social meaning, Solnit focuses on the walkers whose everyday and extreme acts have shaped our culture, from philosophers to poets to mountaineers. She profiles some of the most significant walkers in

history and fiction--from Wordsworth to Gary Snyder, from Jane Austen's Elizabeth Bennet to Andre Breton's Nadja--finding a profound relationship between walking and thinking and walking and culture. Solnit argues for the necessity of preserving the time and space in which to walk in our ever more car-dependent and accelerated world.

Utopia Sep 20 2021 For more than 2,000 years utopian visionaries have sought to create a blueprint of the ideal society: from Plato to HG Wells, from Cloud cuckoo land to Shangri-La, the utopian impulse has generated a vast body of work, encompassing philosophy and political theory, classical literature and science fiction. And yet these utopian dreams have often turned to nightmare, as utopia gives way to its dark reflection, dystopia. *Utopia* takes the reader on a journey through these imaginary worlds, charting the progress of utopian ideas from their origins within the classical world, to the rebirth of utopian ideals in the Middle Ages. Later we see the emergence of socialist and feminist ideas; while the twentieth century was to be dominated by expressions of totalitarian oppression. From the novel to the political manifesto, from satire to science fiction, utopias have always reflected the age that gave rise to them, and this guide will explore this historical context, offering both an analysis of the key texts and an account of their political and cultural background. Today, it is claimed that we are witnessing the death of utopia, as increasingly the ideals that give rise to them are undermined or dismissed. These arguments are explored and evaluated here, and contemporary examples of utopian

thought used to demonstrate the enduring relevance of the utopian tradition. 'Crams a lot of information into a slim guide...Cleverly written' - Fortean Times 'Although a slim paperback, this book turns out to be quite exhaustive on the chosen topic and, in its brevity, to be quite original in its perspective as well' - Modern Language Review

Psychogeography Oct 02 2022 Provocateurs Will Self and Ralph Steadman join forces in this post-millennial meditation on the vexed relationship between psyche and place in a globalised world, bringing together for the first time the very best of their 'Psychogeography' columns for the Independent. The introduction, 'Walking to New York', is both a prelude to the verbal and visual essays that make up this extraordinary collaboration, and a revealing exploration of the split in Self's Jewish-American-British psyche and its relationship to the political geography of the post-9/11 world. Ranging from the Scottish Highlands to Istanbul and from Morocco to Ohio, Will Self's engaging and disturbing vision is perfectly counterpointed by Ralph Steadman's edgy and beautiful artwork.

The Utopia Reader, Second Edition Jan 01 2020 The Utopia Reader compiles primary texts from a variety of authors and movements in the history of theorizing utopias. Utopianism is defined as the various ways of imagining, creating, or analyzing the ways and means of creating an ideal or alternative society. Prominent writers and scholars across history have long explored how or why to envision different ways of life. The volume includes texts from classical Greek literature, the Old Testament, and Plato's Republic, to Sir Thomas More's Utopia, to George Orwell's Nineteen Eighty-Four and beyond. By balancing well-known and obscure

examples, the text provides a comprehensive and definitive collection of the various ways Utopias have been conceived throughout history and how Utopian ideals have served as criticisms of existing sociocultural conditions. This new edition includes many historically well-known works, little known but influential texts, and contemporary writings, providing an even more expansive coverage of the varieties of approaches and responses to the concept of utopia in the past, present, and even the future. In particular, the volume now includes feminist writings and work by authors of color, and contends with current concerns, such as the exploration of the ecological ideals of Utopia. Furthermore, Claeys and Sargent highlight twenty-first century trends and popular narrative explorations of Utopias through the genres of young adult dystopias, survivalist dystopias, and non-print utopias. Covering a range of original theories of utopianism and revealing the nuances and concerns of writers across history as they attempt to envision different, ideal societies, *The Utopia Reader* is an essential resource for anyone who envisions a better future.

The Art of Wandering Nov 03 2022 *The Art of Wandering* is a history of that curious hybrid, the writer as walker. From the Ancient world to the modern day, the role of the walker continues to evolve, from philosopher and pilgrim, vagrant and visionary, to experimentalist and radical. From Rousseau and De Quincey to Virginia Woolf and Werner Herzog, this seemingly innocuous activity has inspired a literary tradition encompassing philosophy and poetry, the novel and the manifesto.

Today, this figure has returned to the forefront of the public imagination, as writers and walkers follow in the footsteps of earlier generations. For the walker is once again on the march, seeking out new territory and recording new impressions of the landscape. Newly revised and updated, *The Art of Wandering* explores these adventures on foot. Every walk can be expressed as a story narrated by the walker; it is these stories and the lives of those who walked them which are examined here.

The Art of Wandering Mar 07 2023 A philosophical history of that strange but prolific hybrid--The Writer as Walker. From the peripatetic philosophers of Ancient Greece to the streets of 20th-century London, Paris, and New York, the figure of writer as walker has continued to evolve through the centuries, the philosopher and the Romantic giving way to the experimentalist and radical. From pilgrim to pedestrian, flâneur to stalker, the names may change, but the activity of walking remains constant, creating a literary tradition encompassing philosophy and poetry, the novel and the manifesto; a tradition which this book explores in detail. Today, as the figure of the wanderer returns to the forefront of the public imagination, writers and walkers around the world are reengaging with the ideas which animated earlier generations--for the walker is once again on the march, mapping new territory and recording new visions of the landscape.

Short History of Tutankhamun Jun 17 2021 In 1922 Howard Carter uncovered what is still regarded as the most spectacular archaeological discovery ever made. Tutankhamun's tomb had remained hidden in the Valley of the Kings for more than 3000 years and its discovery caused a media sensation, elevating the previously little-known Egyptian Pharaoh into the position of an international celebrity. The contents

of the tomb were found almost entirely intact, including the Pharaoh's mummified body, still wearing its solid gold funeral mask. Tutankhamun lived in an era when the Egyptian Empire, centred on the royal city of Thebes, was at its pinnacle and when the wealth and power of its Pharaoh was at its greatest. This was also a period of enormous religious upheaval. Akenaten, the heretical Pharaoh and, more than likely, Tutankhamun's father, had introduced a new religion, exclusively worshipping the sun god Aten. Under Tutankhamun, the old religion, with its many gods and goddesses, was restored, putting an end to the heresy.

London Lore Jan 25 2022 In which part of North London were wild beasts once thought to roam the sewers? Why did 1920s working-class Londoners wear necklaces of blue beads? Who was the original inspiration for the 'pearly king' costume? And did Spring-heeled Jack, scourge of Victorian London, ever really exist? Exploring everything from local superstitions and ghost stories to annual customs, this is an enchanting guide to the ancient legends and deep-rooted beliefs that can be found the length and breadth of the city.

Folk Horror May 29 2022 Interest in the ancient, the occult, and the "wyrd" is on the rise. The furrows of Robin Hardy (The Wicker Man), Piers Haggard (Blood on Satan's Claw), and Michael Reeves (Witchfinder General) have arisen again, most notably in the films of Ben Wheatley (Kill List), as has the Spirit of Dark of Lonely Water, Juganets, cursed Saxon crowns, spaceships hidden under ancient barrows, owls and flowers, time-warping stone circles, wicker men, the goat of Mendes, and

malicious stone tapes. Folk Horror: Hours Dreadful And Things Strange charts the summoning of these esoteric arts within the latter half of the twentieth century and beyond, using theories of psychogeography, hauntology, and topography to delve into the genre's output in film, television, and multimedia as its "sacred demon of ungovernableness" rises yet again in the twenty-first century.

Visions of the Real Mar 15 2021 The cultural landscape is what lies around us and has to be understood and learned to deal with. The best way to do this is to start from the beginning in order to understand the contemporary iterations of the concept. We will not reinvent the concept, but we will try to create a new way to see it. The operative concept of cultural landscape is part of a reality that is seen and visioned differently by each individual. This means that the concept has an almost infinite number of meanings. Thus this book presents some of the visions of the surrounding reality through the eyes of an architect.

Water Shall Refuse Them May 17 2021 The heatwave of 1976. Following the accidental drowning of her sister, sixteen-year-old Nif and her family move to a small village on the Welsh borders to escape their grief. But rural seclusion doesn't bring any relief. As her family unravels, Nif begins to put together her own form of witchcraft - collecting talismans from the sun-starved land. That is, until she meets Mally, a teen boy who takes a keen interest in her, and has his own secret rites to divulge. Reminiscent of the suspense of Shirley Jackson and soaked in the folkhorror of English heritage, Water Shall Refuse Them is an atmospheric coming-of-age novel and a

thrilling debut.

Peripatetic Frame Mar 03 2020 From cinema's earliest days, walking and filmmaking have been intrinsically linked. Technologically, culturally and aesthetically, the pioneers of cinema were not only interested in using the camera to scientifically study ambulatory motion, but were also keen to capture the speed and mobile culture of late 19th-century urban life. Photographers such as Felix Nadar took their cameras into the Parisian streets and boulevards as mechanised flneurs, ushering us into the age of the 'mobilised virtual gaze'. But if photography could only embalm modernity in an instant of time, the cinema brought these instants to life again. From Muybridge and Marey's photographic studies of motion to Charlie Chaplin's character 'The Tramp', and from the Steadicam to the police procedural, Thomas Deane Tucker explores the intertwined relationship between cinema and walking from its very first steps - breaking new ground in motion studies and providing a bold new perspective on film history.

A arte de caminhar Aug 20 2021 Merlin Coverley apresenta, em "A Arte de Caminhar", uma reflexão acerca da atividade de caminhar e sua relação com a criação e a escrita. Para isso, vale-se de dados biográficos e das obras de autores de diversas regiões e épocas que tinham a atividade incorporada em sua rotina, seja como simples caminhantes, como peregrinos, pedestres ou flanêurs. Em comum, a maioria desses autores tem na caminhada uma fonte inesgotável de inspiração e questionamento, fortemente incorporada em suas criações. Como a caminhada adquiriu esse status? Por que algo tão óbvio como colocar um pé diante do outro adquiriu um valor tão elevado? O autor apresenta e analisa algumas respostas possíveis.

Ghostly Matters Apr 27 2022 "Avery Gordon's stunningly original and provocatively imaginative book explores the connections linking horror, history, and haunting. " -George Lipsitz "The text is of great value to anyone working on issues pertaining to the fantastic and the uncanny." -American Studies International "Ghostly Matters immediately establishes Avery Gordon as a leader among her generation of social and cultural theorists in all fields. The sheer beauty of her language enhances an intellectual brilliance so daunting that some readers will mark the day they first read this book. One must go back many more years than most of us can remember to find a more important book." -Charles Lemert Drawing on a range of sources, including the fiction of Toni Morrison and Luisa Valenzuela (He Who Searches), Avery Gordon demonstrates that past or haunting social forces

control present life in different and more complicated ways than most social analysts presume. Written with a power to match its subject, *Ghostly Matters* has advanced the way we look at the complex intersections of race, gender, and class as they traverse our lives in sharp relief and shadowy manifestations. Avery F. Gordon is professor of sociology at the University of California, Santa Barbara. Janice Radway is professor of literature at Duke University.

Psychogeography May 09 2023 This book examines the origins of psychogeography in the Paris of the 1950s, exploring the theoretical background and its political application in the work of Guy Debord and the Situationists. Psychogeography continues to find retrospective validation in much earlier traditions, from the visionary writing of William Blake and Thomas De Quincey to the rise of the flaneur and the avant-garde experimentation of the Surrealists.

Walking in the City May 05 2020 In this book, Catharina Löffler traces the psycho-physical experiences of London walkers in eighteenth-century literature. For this purpose, readings of fascinating, exciting, comical and sometimes disturbing texts grant insights into a culturally, historically and socially significant time in the history of London and make this book a tour of London as seen and heard through the eyes and ears of fictional eighteenth-century urban walkers. Uniting concepts of literary theory, urban studies and psychogeography, Löffler approaches a cross-generic range of literary texts that design uniquely subjective visions and versions of the city. A journey through the fictions and factions of eighteenth-century London, this book provides a compelling read for anyone interested in the history and literature of the English capital.

Psychogeography Apr 08 2023 The term "psychogeography" is used to illustrate a bewildering array of ideas, from ley lines and the occult to urban walking and political radicalism—where does it come from and what exactly does it mean? Psychogeography is the point where psychology and geography meet in assessing the emotional and behavioral impact of urban space. The relationship between a city and its inhabitants is measured firstly through an imaginative and literary response, secondly on foot through walking the city. This creates a tradition of the writer as walker and has both a literary and a political component. This guide examines the origins of psychogeography in the Situationist Movement of the 1950s, exploring the theoretical background and its political

applications as well as the work of early practitioners such as Guy Debord and Raoul Vaneigem. Elsewhere, psychogeographic ideas continue to find retrospective validation in much earlier traditions from the visionary writing of William Blake and Thomas De Quincey to the rise of the flâneur on the streets of 19th century Paris and on through the avant-garde experimentation of the Surrealists. These precursors are discussed here alongside their modern counterparts, for today these ideas hold greater currency than ever through the popularity of writers and filmmakers such as Iain Sinclair and Peter Ackroyd, Stewart Home and Patrick Keiller. This guide offers both an explanation and definition of the terms involved, an analysis of the key figures and their work, and practical information on psychogeographical groups and organizations.

The English Heretic Collection Dec 24 2021 From its inaugural Black Plaque in honour of Witchfinder General director Michael Reeves, this unique collection follows a veridical trajectory to the frontiers of belief. Reeves' film becomes a conspiratorial cauldron drawing in a host of tragic players in the end game of the Sixties. The Cornwall of Du Maurier's *The Birds* is ploughed to reveal the hidden psychic codes of our Blitz spirit. In a powerfully relevant occult rendering of a bruised Island, the myth of Churchill is dissected and re-animalised. New maps of hell are drawn by colliding the forensic vision of JG Ballard and Lovecraftian magic. Actors, witches and psychopaths maraud across a nightmare terrain of murderous henges and abandoned military bases; conflating creative research into a surreal documentary, history as

hallucination. Geography becomes an alchemical alembic, a vale of soul-making distilled by the lysergic psychobiology of Stanislav Grof, the alcoholic lyricism of Malcolm Lowry, and the convulsive travelogues of the Marquis de Sade. If history is revealed as paranoid ritual, how do we escape its time traps to wild new imaginative geographies? The English Heretic collection is a darkly comical, urgently lyrical, mental escape hatch from the hells of our own making.

Babbling Corpse Dec 12 2020 In the age of global capitalism, vaporwave celebrates and undermines the electronic ghosts haunting the nostalgia industry. Ours is a time of ghosts in machines, killing meaning and exposing the gaps inherent in the electronic media that pervade our lives. Vaporwave is an infant musical micro-genre that foregrounds the horror of electronic media's ability to appear - as media theorist Jeffrey Sconce terms it - "haunted." Experimental musicians such as INTERNET CLUB and MACINTOSH PLUS manipulate Muzak and commercial music to undermine the commodification of nostalgia in the age of global capitalism while accentuating the uncanny properties of electronic music production. Babbling Corpse reveals vaporwave's many intersections with politics, media theory, and our present fascination with uncanny, co(s)mic horror. The book is aimed at those interested in global capitalism's effect on art, musical raids on mainstream "indie" and popular music, and anyone intrigued by the changing relationship between art and commerce.
