The Gem Series of Cursive Writing 2 Dec 30 2019

Short Call Mar 01 2020 The Texas Folklore Society has been publishing a regular volume of folklore research (our PTFS series) for the past several decades. Most of these books are what we call miscellanies, compilations of the works of multiple folklorists, and they feature articles on many types of lore. We've also published over twenty "Extra Books," which are single-author manuscripts that examine a more focused topic. Short Call: Snippets from the Smallest Places in Texas, 1935-2000 by Joyce Gibson Roach, is TFS Extra Book #24. Joyce Gibson Roach has collected "snippets" of stories, recipes, and traditions of life in Turtle, Texas, which represents many small towns--and the people who inhabit them. Many of the younger generations leave such towns, finding both place and society crumbling. Those who've stayed are finding new and interesting ways to put themselves and their places back together. Both the short and long pieces herein are about the folks who've elected to stay generation after generation, knowing that for them wherever they've stayed is still the Home Place. The characters' viewpoints are personal, sometimes agreeing with facts found in history books and sometimes not.

Baseball Joe at Yale Apr 01 2020 During his stint as a college player at Yale, Baseball Joe's reputation as an ace player continues to grow -- so much so that he provokes the envy of many of his teammates and falls prey to a stunt designed to besmirch his good name. Will Joe be able to set things right before it's time for the playoffs?

Twisters and Teasers Feb 21 2022

The Little Giant Book of Brain Twisters Oct 08 2020 Get smart--give your brain a super-sized workout that's fun, challenging, and mind-expanding! You'll really have to keep your wits about you as you tackle six big sections filled with puzzles and tricks of every sort, from the visual to the verbal. Try critical thinking and lateral thinking questions, where you'll have to "work outside the box," forget your assumptions, and look at the problem from a fresh viewpoint. Whodunits have all the pleasures of a mystery--but you're the detective trying to figure it out! Be "number one" at math conundrums, and open your eyes and look sharp when you tackle the picture puzzles and optical illusions. Give this a shot and find out if you can be a "toothpick architect"! Build a house using 11 toothpicks as shown in the diagram. See if you can make the house face the opposite direction by moving only one toothpick. Answer: Move one of the toothpicks in the roof.

Brain Twisters and Teasers May 07 2023 The activities in this book include: riddles, cryptograms, lateral thinking, categorization puzzles, and much more.
