A Home for Surrealism Jan 23 2020 Chicago has for decades years been one of the most prominent cities where European surrealism is avidly collected and displayed. However, there has yet to be a scholarly exhibition and catalogue that addresses the local manifestations of this international mode of art. A Home for Surrealism focuses on a select group of painters whose work in the 1940s and '50s both transformed the domestic and domesticated the surrealist, particularly in Chicago. Working independently, but within a chain of social and artistic relationships, this group explored the interior as a site of projected imagination and fantasy, and the self as the generator of such altered perception. Including contributions by Robert Cozzolino, Adam Jolles, and Joanna Pawlik, the book provides a richly illustrated account of an international movement's unlikely--but somehow ever so fitting--home in America.

Silicon Germanium Materials and Devices - A Market and Technology Overview to 2006 Mar 25 2020 The first edition of Silicon Germanium Materials & Devices - A Market & Technology Overview to 2006 examines the development of the silicon germanium business over a six-year period 2001 to 2006. It analyses the trends in markets, technologies and industry structure and

profiles all the major players. It is specifically aimed at users and manufacturers of substrates, epiwafers, equipment and devices. The analysis includes a competitive assessment of the market of silicon germanium vs. gallium arsenide, indium phosphide vs. other forms of silicon. Silicon Germanium Materials & Devices - A Market & Technology Overview to 2006 is designed to assist with business plans, R&D and manufacturing strategies. It will be an indispensable aid for managers responsible for business development, technology assessment and market research. The report examines the rapid development of silicon germanium from an R&D curiosity to production status. An extensive treatment from materials through processes to devices and applications it encapsulates the entire silicon germanium business of today and assesses future directions. For a PDF version of the report please call Tina Enright on +44 (0) 1865 843008 for price details.

Marketing- und Positionierungsstrategien im Bereich Unterhaltungselektronik Jun 27 2020

Inhaltsangabe: Einleitung: Der Einzelhandel von Elektroartikeln ist in den letzten Jahren von einem harten Konkurrenzkampf gezeichnet. Indikatoren für den Verdrängungswettbewerb sind vor allem aggressive Preiskämpfe, steigende Werbebudgets und sinkende Renditen. Die seit Jahren zu beobachtende Konjunkturflaute ist zudem eine gravierende Ursache für deutliche Umsatzeinbußen, die der Elektroeinzelhandel verzeichnet. Verschärft wird die Situation auch dadurch, dass immer mehr branchenfremde Unternehmen sich dem Geschäft mit Unterhaltungselektronik und weißer Ware zuwenden. Selbst der Lebensmitteleinzelhandel, allen voran die Discounter, entreißen den Fachmärkten und Fachgeschäften signifikante Umsatzanteile. Bei den Konsumenten reduzierte sich hingegen, aufgrund der angespannten wirtschaftlichen Situation und in Folge der Euroeinführung in 2002, die Kaufbereitschaft bei langlebigen Gebrauchsgütern, wie z.B. der Unterhaltungselektronik. Die mangelnde Konsumneigung, die derzeit minus 24,5 Punkte bemisst und weit unter dem langjährigen Durchschnitt von Null liegt, ist mit der Schwäche des deutschen Arbeitsmarktes zu begründen. Die Furcht, den Arbeitsplatz zu verlieren, verunsichert viele Konsumenten, schränkt damit ihre Kaufbereitschaft ein und fördert ihr Sparverhalten. Die verhaltene Einkommenserwartung, die aktuell minus 6,5 Punkte unter dem Durchschnitt liegt, ist auf die Befürchtungen der Verbraucher zurückzuführen, zukünftig weitere finanzielle Belastungen infolge der Reformpolitik zu begeben. Leidtragende sind primär die mittelständischen

Elektroeinzelhändler, die ohne klare Struktur und Marktposition auftreten, keiner Verbundgruppe angehören und somit einer höheren Insolvenzgefahr unterliegen. Allein im Jahr 2003 sind laut statistischem Bundesamt insgesamt 259 Unternehmensinsolvenzen im Bereich Einzelhandel mit Unterhaltungs- und Haushaltselektronik angemeldet worden. Trotz der Konjunkturschwäche gibt es aber Unternehmen, die mit soliden Geschäftsmodellen steigende Umsätze und Gewinne verzeichnen. So steigerte die Media-Saturn-Gruppe mit ihren 179 Media Märkten und 92 Saturn-Häusern in Deutschland im Geschäftsjahr 2003, im Vergleich zum Vorjahr, ihren Inlandsumsatz um 3,3 % auf 6,3 Mrd. Euro. Dagegen scheinen die größten Verbundgruppen Deutschlands, Electronic Partner, Red Zac und Expert Schwierigkeiten mit der Entwicklung des Deutschlandgeschäftes zu haben. Problemstellung: Die aktuellen Markt- und Umfeldbedingungen, so wie sie oben [...]

Электронные средства связи Jan 03 2021 Книга знакомит с новейшими отечественными и зарубежными средствами передачи информации. В ней последовательно рассмотрены все устройства связи, применяемые в повседневной деятельности современного человека: телефонные и факсимильные аппараты, автоответчики, модемы, мини-АТС, техника пейджинговой, транкинговой и сотовой связи, персональные спутниковые системы связи и навигации, Internet-телефония. Описаны физические основы и принципы действия этих устройств, а также приведены таблицы с их основными характеристиками. Описаны правила эксплуатации, стандарты и рекомендации по применению таких электронных устройств. Для всех пользователей средствами передачи информации, менеджеров и руководителей предприятий, студентов и преподавателей вузов.

Presumption of Innocence in EU Anti-Cartel Enforcement Apr 06 2021 In this book the author examines the compliance of the European anti-cartel enforcement procedure with the presumption of innocence under Article 6(2) of the European Convention on Human Rights.
