The Missouri Compromise and Its Aftermath Apr 27 2022 As a key to understanding the meaning of slavery in America, the Missouri controversy of 1819-21 is probably our most valuable text. The heat of sectional rhetoric during the Missouri debates reached a level never exceeded, and rarely matched, until the secession crisis of 1860. Moreover, nearly all the arguments for and against slavery in America were advanced at this time (with revealing exceptions, as we shall see). The Missouri Compromise is said to have settled the slavery question for a generation; its repeal, in 1854, triggered the final stage of the sectional crisis, prompted the establishment of the Republican Party, and impelled the return to politics of Abraham Lincoln. It merits a heading in every American history textbook. ----Introduction

[Ukraine During World War II](#) Sep 08 2020 The history of Ukraine during World War II.

The Recovering Dec 12 2020 Addiction is seemingly inexplicable. From the outside, it can look like wilful, arrogant self-destruction; from the inside, it can feel as inevitable and insistent as a heartbeat. It is possible to describe, but hard to explore. Yet in *The Recovering*, Leslie Jamison draws on her own life and the lives of addicts of extraordinary talent - John Cheever, John Berryman, Jean Rhys and Amy Winehouse among them - to take us inside the experience of addiction, exposing the contours, edges and wholes of an intoxicated life. Part memoir, part group biography, part literary history and part definitive analysis of cultural and social considerations of addiction, *The Recovering* is a significant moment in the history of post-war narrative non-fiction.

The Missouri Compromise and Its Aftermath May 17 2021 As a key to understanding the meaning of slavery in America, the Missouri controversy of 1819-21 is probably our most valuable text. The heat of sectional rhetoric during the Missouri debates reached a level never exceeded, and rarely matched, until the secession crisis of 1860. Moreover, nearly all the arguments for and against slavery in America were advanced at this time (with revealing exceptions, as we shall see). The Missouri Compromise is said to have settled the slavery question for a generation; its repeal, in 1854, triggered the final stage of the sectional crisis, prompted the establishment of the Republican Party, and impelled the return to politics of Abraham Lincoln. It merits a heading in every American history textbook. ----Introduction

[Kosovo](#) Sep 20 2021 Nato intervention in Kosovo marked a major turning point in post cold war international relations. While some western commentators argued that it was the first war to be fought on purely moral grounds, Serbian, Russian and Chinese assessments were sharply different. This highly original addition to the literature on Kosovo highlights the importance of perspective to an understanding of both the causes and consequences of war. It makes clear that the conceptual lenses, paradigms or frameworks through which political actors view reality in turn affect their understanding of the behaviour of others and their reactions to it. The authors, a team of regional experts on the countries covered, examine the way the war has been understood in countries involved in and peripheral to the conflict. Their aim is to provide a broad yet highly nuanced picture of this focal point of Balkan unrest. The book opens with an introduction to the historical and regional context of the conflict. The authors go on to present twelve case-studies, ranging from Serbia, and the other former Yugoslav republics, to the USA and to China. These detailed regional studies highlight the considerable variation in the key states' perceptions of their national interest and their perceptions of what constitutes legality or legitimacy. In each case, domestic constraints are explored and the ways in which differing perspectives of political and military leadership fed into the crisis are examined. Further thematic chapters determine the war's consequences and the lessons to be drawn in terms of the wider issues of refugees, humanitarian intervention, European security, and geopolitics.

Suicide and Its Aftermath Mar 27 2022 Offers guidance to counselors on how to help the families and friends of suicides to overcome their feelings of grief and guilt

Syrian Requiem Jul 19 2021 A compact, incisive history of one of the defining conflicts of our time Leaving almost half a million dead and displacing an estimated twelve million people, the Syrian Civil War is a humanitarian catastrophe of unimaginable scale. *Syrian Requiem* analyzes the causes and course of this bitter conflict—from its first spark in a peaceful Arab Spring protest to the tenuous victory of the Assad dictatorship—and traces how the fighting has reduced Syria to a crisis-ridden vassal state with little prospect of political reform, national reconciliation, or economic reconstruction. Israel's chief negotiator with Syria during the mid-1990s, Itamar Rabinovich brings unmatched expertise and insight to the politics of the Middle East. Drawing on more than two hundred specially conducted interviews with key players, Rabinovich and Carmit Valensi assess the roles of local, regional, and global interests in the war. Local sectarian divisions established the fault lines of the initial conflict, ultimately leading to the rise of the brutal Islamic State. However, Syria rapidly became the stage for proxy warfare between contending regional powers, including Israel, Turkey, and Iran. At the same time, while a war-weary United States attempted to reduce its military involvement in the Middle East, a resurgent Russia regained regional influence by supporting Syrian government forces. Telling the story of the war and its aftermath, Rabinovich and Valensi also examine the considerable potential for renewed conflict and the difficult policy choices facing the United States, Russia, and other powers. A compact and incisive history of one of the defining wars of our times, *Syrian Requiem* is a vivid and timely account of a conflict that continues to reverberate today.

[Slavery and its aftermath](#) Oct 22 2021

This Terrible War May 09 2023 Explores the complexities of the Civil War era, detailing the political, economic, military, and human events of this tragic American conflict. Personal and candid excerpts from diaries, newspapers, and songs illustrate the human meanings of the war. Detailed examination of the chain of events in the contexts of the years leading up to the Civil War and follows the war's aftermath. Reports on the home front where the impact of the Civil War was felt most. In this engaging account of the Civil War, the war that Abraham Lincoln called in his Second Inaugural Address, "this terrible war," the authors take the readers beyond the flags and bugles to explore this event for what it was rather than for what many wish it had been. Ultimately set off by the Slavery Debate and the South's secession from the Union, the Civil War was a spiteful military campaign of countryman vs. countryman, and resulted in enormous casualties and dire consequences for the Northern and Southern Armies. The authors thoroughly explore the political, economic, and social chain of events that led up to the war; the chaos and destruction which resulted from political inexperience with waging a war of this magnitude; and the ultimate failure of Reconstruction effort to produce racial justice. With maps to guide the reader through the major battles, and period photographs which show both the military and the human side of the conflict, *This Terrible War* provides the reader with a unique view of a complex American tragedy in the context of the Civil War and Reconstruction eras. Michael Fellman is Professor of History and Director of the Graduate Liberal Studies Program at Simon Fraser University in Vancouver, British Columbia. Among his earlier books are *Inside War: The Guerrilla Conflict in Missouri During the American Civil War*; *Citizen Sherman: A Biography of William T. Sherman*; and *The Making of Robert E. Lee*. Daniel E. Sutherland is a professor of history at the University of Arkansas. He is the author or editor of eleven other books about Nineteenth-Century United States history, including *Seasons of War: The Ordeal of a Confederate Community*, and *Fredericksburg and Chancellorsville: The Dare Mark Campaign*.

The Rogue River Indian War and Its Aftermath, 1850-1980 Nov 10 2020 From 1855 to 1856 in western Oregon, the Native peoples along the Rogue River outmaneuvered and repeatedly drove off white opponents. In *The Rogue River Indian War and Its Aftermath, 1850-1980*, historian E. A. Schwartz explores the tribal groups' resilience not only during this war but also in every period of federal Indian policy that followed. Schwartz's work examines Oregon Indian people's survival during American expansion as they coped with each federal initiative, from reservation policies in the nineteenth century through termination and restoration in the twentieth. While their resilience facilitated their success in adjusting to white society, it also made the people known today as the Confederated Tribes of Siletz Indians susceptible to federal termination programs in the 1970s—efforts that would have dissolved their communities and given their resources to non-Indians. Drawing on a range of federal documents and anthropological sources, Schwartz explores both the history of Native peoples of western Oregon and U.S. Indian policy and its effects.

King Death Jul 31 2022 Examines what it was like to live with plague at all levels of society. Argues that the severe labor shortage that persisted for over a century after the Black Death ultimately broke the ties of feudal bondage.

[On Jordan's Banks](#) Oct 02 2022 The story of the Ohio River and its settlements are an integral part of American history, particularly during the country's westward expansion. The vibrant African American communities along the Ohio's banks, however, have rarely been studied in depth. Blacks have lived in the Ohio River Valley since the late eighteenth century, and since the river divided the free labor North and the slave labor South, black communities faced unique challenges. In *On Jordan's Banks*, Darrel E. Bigham examines the lives of African Americans in the counties along the northern and southern banks of the Ohio River both before and in the years directly following the Civil War. Gleaning material from biographies and primary sources written as early as the 1860s, as well as public records, Bigham separates historical truth from the legends that grew up surrounding these communities. The Ohio River may have separated freedom and slavery, but it was not a barrier to the racial prejudice in the region. Bigham compares early black communities on the northern shore with their southern counterparts, noting that many similarities existed despite the fact that the Roebling Suspension Bridge, constructed in 1866 at Cincinnati, was the first bridge to join the shores. Free blacks in the lower Midwest had difficulty finding employment and adequate housing. Education for their children was severely restricted if not completely forbidden, and blacks could neither vote nor testify against whites in court. Indiana and Illinois passed laws to prevent black migrants from settling within their borders, and blacks already living in those states were pressured to leave. Despite these challenges, black river communities continued to thrive during slavery, after emancipation, and throughout the Jim Crow era. Families were established despite forced separations and the lack of legally recognized marriages. Blacks were subjected to intimidation and violence on both shores and were denied even the most basic state-supported services. As a result, communities were left to devise their own strategies for preventing homelessness, disease, and unemployment. Bigham chronicles the lives of blacks in small river towns and urban centers alike and shows how family, community, and education were central to their development as free citizens. These local histories and life stories are an important part of understanding the evolution of race relations in a critical American region. *On Jordan's Banks* documents the developing patterns of employment, housing, education, and religious and cultural life that would later shape African American communities during the Jim Crow era and well into

the twentieth century.

The Aftermath Dec 04 2022 In the bitter winter of 1946, Rachael Morgan arrives with her only remaining son Edmund in the ruins of Hamburg. Here she is reunited with her husband Lewis, a British colonel charged with rebuilding the shattered city. But as they set off for their new home, Rachael is stunned to discover that Lewis has made an extraordinary decision- they will be sharing the grand house with its previous owners, a German widower and his troubled daughter. In this charged atmosphere, enmity and grief give way to passion and betrayal.

The Aftermath: Aug 20 2021 Themes: Hi-Lo, Dystopia, disaster, survival, relationships. Cecilia has always been secure in her world. A high school cheerleader, she is pretty and popular. And she dates Ryan, one of the cutest boys in her school. She leads a charmed and pampered life. Clearly everyone forgot the warnings buried deep in the quatrains of Nostradamus-- the end of days. When the world they know is destroyed, will their struggle to survive destroy their love? This new normal-- this new life-- is cruel and unpredictable and tests both of them in ways that they've never imagined. But it's not the end, only the beginning, but the beginning of what? From what we've calculated, it's been seven days since The End. We don't really have a more suitable name for it. There was absolutely no warning. It was three days after Christmas. We were alone and scared. Nobody expected the theories and stories to actually come true. After 2012 passed with no strange activity, the whole idea of the apocalypse seemed like rubbish. But we were proven terribly wrong. Nostradamus got it right after all.

Problems of World War II and Its Aftermath Jul 07 2020

Infamy Feb 23 2022 From a Pulitzer Prize-winning historian and bestselling author, a revealing account of the events surrounding the day that the Japanese military launched a sneak attack on U.S. forces stationed in Pearl Harbor. Includes evidence that top U.S. officials knew about the attack but remained silent for political reasons and the conspiracy afterward to hide the facts. Photographs.

Other Moons Mar 15 2021 In this anthology, Vietnamese writers describe their experience of what they call the American War and its lasting legacy through the lens of their own vital artistic visions. A North Vietnamese soldier forms a bond with an abandoned puppy. Cousins find their lives upended by the revelation that their fathers fought on opposite sides of the war. Two lonely veterans in Hanoi meet years after the war has ended through a newspaper dating service. A psychic assists the search for the body of a long-vanished soldier. The father of a girl suffering from dioxin poisoning struggles with corrupt local officials. The twenty short stories collected in *Other Moons* range from the intensely personal to narratives that deal with larger questions of remembrance, trauma, and healing. By a diverse set of authors, including many veterans, they span styles from social realism to tales of the fantastic. Yet whether describing the effects of Agent Orange exposure or telling ghost stories, all speak to the unresolved legacy of a conflict that still haunts Vietnam. Among the most widely anthologized and popular pieces of short fiction about the war in Vietnam, these works appear here for the first time in English. *Other Moons* offers Anglophone audiences an unparalleled opportunity to experience how the Vietnamese think and write about the conflict that consumed their country from 1954 to 1975—a perspective still largely missing from American narratives.

Aftermath May 05 2020 A powerful personal narrative of recovery and an illuminating philosophical exploration of trauma On July 4, 1990, while on a morning walk in southern France, Susan Brison was attacked from behind, severely beaten, sexually assaulted, strangled to unconsciousness, and left for dead. She survived, but her world was destroyed. Her training as a philosopher could not help her make sense of things, and many of her fundamental assumptions about the nature of the self and the world it inhabits were shattered. At once a personal narrative of recovery and a philosophical exploration of trauma, this bravely and beautifully written book examines the undoing and remaking of a self in the aftermath of violence. It explores, from an interdisciplinary perspective, memory and truth, identity and self, autonomy and community. It offers imaginative access to the experience of a rape survivor as well as a reflective critique of a society in which women routinely fear and suffer sexual violence. As Brison observes, trauma disrupts memory, severs past from present, and incapacitates the ability to envision a future. Yet the act of bearing witness, she argues, facilitates recovery by integrating the experience into the survivor's life's story. She also argues for the importance, as well as the hazards, of using first-person narratives in understanding not only trauma, but also larger philosophical questions about what we can know and how we should live.

Britain and the Arab Middle East Apr 03 2020 The profound effects of the British Empire's actions in the Arab World during the First World War can be seen echoing through the history of the 20th century. The uprising sparked by the Husayn-McMahon correspondence and led by 'Lawrence of Arabia'; the Sykes-Picot agreement which undermined that rebellion; and memoranda such as the Balfour Declaration all have shaped the Middle East into forms which would have been unrecognizable to the diplomats of the 19th century. Undertaken during the First 'World' War, these actions were not part of a coordinated British strategy, but in fact directed by several overlapping and competing departments, some imperfectly referred to as the 'Arab Bureau'. The British and the Middle East is unique in its comprehensive treatment of how and why the British generals and diplomats acted as they did. By taking as his starting point the voluminous, contradictory and revealing records of the policy-makers in the British government, Robert H. Lieshout shows convincingly that many concerned with foreign policy making were quite oblivious to the history and complexities of the Islamic World. Covering the full sweep of British involvement in Arabia, Lieshout makes a lasting contribution to our understanding of the period in which the British Empire changed the world, and shows how shallow and confused the understanding of those that shaped the future of the Middle East really was.

The Missouri Compromise and Its Aftermath Feb 11 2021 Robert Pierce Forbes goes behind the scenes of the crucial Missouri Compromise, the most important sectional crisis before the Civil War, to reveal the high-level deal-making, diplomacy, and deception that defused the crisis, including the central, unexpe

Fire in the Grove Jan 13 2021 On Saturday night, November 28, 1942, Boston suffered its worst disaster ever. At the city's premier nightclub, the Cocoanut Grove, the largest nightclub fire in U.S. history took the lives of 492 people--nearly one of every two people on the premises. A flash of fire that started in an imitation palm tree rolled through the overcrowded club with breathtaking speed and in a mere eight minutes anyone left in the club was dead or doomed. The Grove was a classic firetrap, the product of greed and indifference on the part of the owners and the politicians who had knowingly allowed such conditions to exist. Against the backdrop of Boston politics, cronyism, and corruption, author John C. Esposito re-creates the drama of the fire and explores the public outcry that followed. In retelling the horrific events of one of America's most cataclysmic tragedies, Esposito has fashioned both an incomparably gripping narrative and a vibrant portrait of the era. But it is the intense, detailed narrative of the fire--harrowing yet compulsively readable--and the trials that followed that will stay with the reader well after they finish this remarkable book. "[Esposito] reminds us that the cautionary tale of the Cocoanut Grove is still relevant today." (New York Law Journal)

The Crash and Its Aftermath Apr 08 2023 *The Crash and Its Aftermath* is an excellent work of reference on the Great Contraction. It will be useful both to people with only a passing curiosity about the Crash and to those for whom the Great Depression is a major scholarly concern. Business History From now on any serious student of the Depression will be obliged to consult this work for a sense of securities price movements, investor attitudes, and relevant contemporary sources. Journal of Economic History This is the first book to focus on the broader structural changes which took place in the financial industry over the full period of decline from the Stock Market Crash in 1929 to the end of President Franklin D. Roosevelt's One Hundred Days in 1933. The basis for many of Wigmore's comments is an analysis of 142 leading companies whose stocks constituted approximately 77 percent of the market value of all New York Stock Exchange stocks. Wigmore also examines the various bond markets and relates the money market to the bond market, monetary policy, business conditions, and the problems of the banking system. Treating each year from 1929 to 1933 separately, Wigmore shows the interrelation between the stock, bond, and money markets and events in politics, the economy, international trade and finance, and monetary policy. The Statistical Appendix of 41 tables consolidates financial statistics which have hitherto been widely dispersed, permitting in-depth study.

To Bear Any Burden Oct 10 2020 "To Bear Any Burden is necessary to understand the most significant aspect of the Indochina wars: the human one." -- Tran Van Dinh, author of *Blue Dragon White Tiger: A Tet Story* "At least this reader would like to spend hours if not days talking to each of the people within these pages." -- Jack Reynolds, Network Correspondent, NBC ..". remarkable insight into the human aspect of the war." -- Library Journal The 48 American and Asian veterans, refugees, and officials who speak in this book come from widely divergent backgrounds. In their narratives we hear them reliving crucial moments in the preparation, execution, and aftermath of war. It is a riveting, eyewitness account of the war and also reclaims from this tragic continuum larger patterns of courage and dedication.

World War 1 and Its Aftermath May 29 2022

The Missouri Compromise and Its Aftermath Jan 05 2023 Robert Pierce Forbes goes behind the scenes of the crucial Missouri Compromise, the most important sectional crisis before the Civil War, to reveal the high-level deal-making, diplomacy, and deception that defused the crisis, including the central, unexpected role of President James Monroe. Although Missouri was allowed to join the union with slavery, the compromise in fact closed off nearly all remaining federal territories to slavery. When Congressman James Tallmadge of New York proposed barring slavery from the new state of Missouri, he sparked the most candid discussion of slavery ever held in Congress. The southern response quenched the surge of nationalism and confidence following the War of 1812 and inaugurated a new politics of racism and reaction. The South's rigidity on slavery made it an alluring electoral target for master political strategist Martin Van Buren, who emerged as the key architect of a new Democratic Party explicitly designed to mobilize southern unity and neutralize antislavery sentiment. Forbes's analysis reveals a surprising national consensus against slavery a generation before the Civil War, which was fractured by the controversy over Missouri.

Assassination and Its Aftermath Jan 31 2020 "The world was shocked and frightened when President John F. Kennedy was gunned down by an assassin in 1963 ... When Kennedy's vice president, Lyndon Baines Johnson, took the presidential oath of office on Air Force One just hours after the assassination, the White House photographer was there. Cecil Stoughton's iconic photo showed the world that the smooth and orderly transfer of power had occurred. His photo helped ease the shock, tension, and fear in an anxious country."-- Back cover.

The Breakup of Yugoslavia and Its Aftermath Jun 29 2022 Rogel examines the breakup of Yugoslavia in 1991, the war in Bosnia, the peace settlement, and the problems that continue to exist in Bosnia and Serbia today.

The Euro Crisis and Its Aftermath Nov 22 2021 The euro's life, while only slightly more than a decade long, has been riddled by a series of challenges and crises. The eruption of the Greek crisis in 2010 took European policymakers by surprise and forced them to design responses to a quickly deteriorating situation. Even though Europe has finally begun to stabilize, the disparity between the prosperous Northern countries, especially Germany, and the plummeting Southern countries, including Spain and Greece, has exacerbated economic and political problems within the Eurozone. Amidst loud and frequent debates, solutions have been enacted, but the struggles facing this monetary union continue to develop even today. *The Euro Crisis and Its Aftermath* was written to inform readers about the roots of this enduring European crisis and the alternative proposals for ending it. In four parts, Jean Pisani-Ferry explains the origins of the European currency, the build-up of imbalances and oversights that led to the crisis, the choices European policymakers have both addressed and ignored since 2010, and the evolution of the policy agenda and possible options for the future. The book is as much of an informative and analytical history as it is a discussion of

solutions for a more prosperous European economy. Rather than putting forth and supporting a thesis, Pisani-Ferry helps readers understand the past and present of the euro crisis and form their own opinions about potential solutions. This book is not intended to reach only economists, as time has long passed since European monetary unification was a debate limited to academics. This book is also for the policy makers searching for solutions, citizens of Europe enduring the consequences, and the international community that has felt the effects of an unstable Eurozone.

The Recovering Sep 01 2022 INSTANT NEW YORK TIMES BESTSELLER "An astounding triumph . . . Profound . . . Achingly wise . . . A recovery memoir like no other." --Entertainment Weekly (A) "Riveting . . . Beautifully told." --Boston Globe "An honest and important book . . . Vivid writing and required reading." --Stephen King "Perceptive and generous-hearted . . . Uncompromising . . . Jamison is a writer of exacting grace." --Washington Post From the New York Times bestselling author of *The Empathy Exams* comes this transformative work showing that sometimes the recovery is more gripping than the addiction. With its deeply personal and seamless blend of memoir, cultural history, literary criticism, and reportage, *The Recovering* turns our understanding of the traditional addiction narrative on its head, demonstrating that the story of recovery can be every bit as electrifying as the train wreck itself. Leslie Jamison deftly excavates the stories we tell about addiction--both her own and others'--and examines what we want these stories to do and what happens when they fail us. All the while, she offers a fascinating look at the larger history of the recovery movement, and at the complicated bearing that race and class have on our understanding of who is criminal and who is ill. At the heart of the book is Jamison's ongoing conversation with literary and artistic geniuses whose lives and works were shaped by alcoholism and substance dependence, including John Berryman, Jean Rhys, Billie Holiday, Raymond Carver, Denis Johnson, and David Foster Wallace, as well as brilliant lesser-known figures such as George Cain, lost to obscurity but newly illuminated here. Through its unvarnished relation of Jamison's own ordeals, *The Recovering* also becomes a book about a different kind of dependency: the way our desires can make us all, as she puts it, "broken spigots of need." It's about the particular loneliness of the human experience--the craving for love that both devours us and shapes who we are. For her striking language and piercing observations, Jamison has been compared to such iconic writers as Joan Didion and Susan Sontag, yet her utterly singular voice also offers something new. With enormous empathy and wisdom, Jamison has given us nothing less than the story of addiction and recovery in America writ large, a definitive and revelatory account that will resonate for years to come.

In the Aftermath Feb 06 2023 When David Herron--overwhelmed and despairing, his family's business and finances in ruin due to the bursting lending bubble of 2008--takes his own life one chilly spring morning, he has no idea the ripple effect his decision will set into motion. Two years later, his widow, Jules, is now an employee of the bakery she and David used to own--and still full of bitterness over David's lies, perceived cowardice, and ultimate abandonment of her and their now-teenage daughter, Rennie. Rennie, meanwhile, struggles socially at school, resents her work-obsessed mother, and is convinced she's to blame for her father's death. When Denise, the former police detective who worked (and, due to her own personal struggles at the time, mishandled) David's case, catches sight of Rennie at her sons' school, she's struck by the girl's halo of sadness--and becomes obsessed with attempting to right the wrongs she believes she perpetrated two years ago. And as all this unfolds in Boston, Daniel, the guilt-ridden young man who, in his old life as a banker, helped create the circumstances that led to David's suicide, continues to punish himself for his sins by living half a life, working odd jobs and bouncing from one US city to another, never staying long enough to make friends or build something lasting. Ultimately, each of these very different people--all of them tied together by one tragic event--must learn in their own way how to say good-bye to the past and move into a brighter future.

The Great Inflation and Its Aftermath Mar 07 2023 The Great Inflation in the 1960s and 1970s, notes award-winning columnist Robert J. Samuelson, played a crucial role in transforming American politics, economy, and everyday life. The direct consequences included stagnation in living standards, a growing belief--both in America and abroad--that the great-power status of the United States was ending, and Ronald Reagan's election to the presidency in 1980. But that is only half the story. The end of high inflation led to two decades of almost uninterrupted economic growth, rising stock prices and ever-increasing home values. Paradoxically, this prolonged prosperity triggered the economic and financial collapse of 2008 and 2009 by making Americans--from bank executives to ordinary homeowners--overconfident, complacent, and careless. *The Great Inflation and Its Aftermath*, Samuelson contends, demonstrated that we have not yet escaped the boom-and-bust cycles common in the nineteenth and early twentieth centuries. This is a sobering tale essential for anyone who wants to understand today's world.

The Aftermath Jun 05 2020 Set in post-war Germany, the international bestseller *The Aftermath* by Rhidian Brook is a stunning emotional thriller about our fiercest loyalties and our deepest desires. In the bitter winter of 1946, Rachael Morgan arrives with her only remaining son Edmund in the ruins of Hamburg. Here she is reunited with her husband Lewis, a British colonel charged with rebuilding the shattered city. But as they set off for their new home, Rachael is stunned to discover that Lewis has made an extraordinary decision: they will be sharing the grand house with its previous owners, a German widower and his troubled daughter. In this charged atmosphere, enmity and grief give way to passion and betrayal.

The Battle of Lechfeld and Its Aftermath, August 955 Dec 24 2021 In August 955 the forces of Otto the Great annihilated a huge army of Hungarian mounted archers in an encounter known as the battle of Lechfeld. This book provides the first satisfactory explanation for the decisive nature of Otto's victory which effectively ended the incursions of steppe nomads into Western Europe. A detailed reconstruction of the battle is preceded by chapters analyzing 10th-century Germany and the strengths of nomadic styles of warfare. A pioneering aspect is the consideration of environmental factors, not only the limits they imposed on the expansion of the nomadic way of life into Europe, but also the impact the local environment had on the outcome of the battle.

The Prague Spring and Its Aftermath Nov 03 2022 The Prague Spring of 1968 was among the most important episodes in post-war European politics. In this book Kieran Williams analyses the attempt at reform socialism under Alexander Dubcek using materials and sources which have become available in the wake of the 1989 revolution. Drawing on declassified documents from party archives, the author readdresses important questions surrounding the Prague Spring: Why did liberalization occur? What was it intended to achieve? Why did the Soviet Union intervene with force? What was the political outcome of the invasion? What part did the reformers play in ending the experiment in reform socialism? What was the role of the security police under Dubcek? The book will provide new information for specialists as well as introductory analysis and narrative for students of East European politics and history and Soviet foreign policy.

Freedom Betrayed Jan 25 2022 Herbert Hoover's "magnum opus"--at last published nearly fifty years after its completion--offers a revisionist reexamination of World War II and its cold war aftermath and a sweeping indictment of the "lost statesmanship" of Franklin Roosevelt. Hoover offers his frank evaluation of Roosevelt's foreign policies before Pearl Harbor and policies during the war, as well as an examination of the war's consequences, including the expansion of the Soviet empire at war's end and the eruption of the cold war against the Communists.

Polio and Its Aftermath Apr 15 2021 In this book, Shell, himself a victim of polio, offers an inspired analysis of the disease. Part memoir, part cultural criticism and history, part meditation on the meaning of disease, Shell's work combines the understanding of a medical researcher with the sensitivity of a literary critic. He deftly draws a detailed yet broad picture of the lived experience of a crippling disease as it makes its way into every facet of human existence.

Reconstruction and Its Aftermath Jan 01 2020 "The end of the American Civil War brought with it an end to the unjust system of chattel slavery in the South. This raised challenging questions: How should the freedmen be integrated into American society? And how should rebellious states regain their former position within the federal government? Between 1865 and 1877, the United States passed through a turbulent period known as Reconstruction. Thanks to the passage of Constitutional amendments, black Americans received greater rights; however, white supremacist groups like the Ku Klux Klan fought to restrict black civil rights as much as possible"--Back cover.

Infamy Aug 08 2020 From a Pulitzer Prize-winning historian and bestselling author, a revealing account of the events surrounding the day that the Japanese military launched a sneak attack on U.S. forces stationed in Pearl Harbor. Includes evidence that top U.S. officials knew about the attack but remained silent for political reasons and the conspiracy afterward to hide the facts. Photographs.

The Aftermath Jun 17 2021 Profusely illustrated text depicts the aftermath of World War II in Europe, including the detentions and trials and the refugee problems.

A Nation Challenged Mar 03 2020 The New York Times has opened its archives on September 11 and its consequences, including the anthrax scare, the bombing campaign in Afghanistan, the fall of the Taliban and the efforts to rebuild the nation. It also features background essays, charts and graphics that provide a new level of clarity.
